Miami Dolphins Become First Sports Team To Partner With SunPass® For Stadium Parking

Two parties join forces to offer a more convenient, less expensive parking option to enhance fan game day experience

Davie, Fla. – The Miami Dolphins today became the first sports team in Florida to partner with a prepaid toll program in offering a convenient, less expensive parking payment option for guests attending stadium events through the SunPass program. This partnership makes SunPass the exclusive provider of electronic parking payment at the stadium.

Fans with an active SunPass account must select “Easy Pay” automatic replenishment on SunPass.com using a credit card or debit card to enjoy the ease and convenience of SunPass Plus Parking. Customers can check to see if they are enrolled in SunPass Plus by logging into their account at SunPass.com and clicking on “TRANSPONDERS” at the top of the page to confirm their SunPass Plus status.

“We seek to have our pulse on ways to improve the fan experience at our stadium,” Miami Dolphins Senior Vice President of Operations Todd Boyan said. “This innovative partnership with Florida’s SunPass Prepaid Toll Program allows our fans to enjoy the convenience of utilizing a widely-adopted service in the community while also enjoying a price savings.”

SunPass Plus customers will have the convenience of using the program and paying less than the cash customer entering the stadium. Fans simply look for the SunPass Plus logo when entering the stadium to utilize the option.
