Florida's Turnpike Widening Project from North of Boynton Beach Boulevard To North of Lake Worth Road Begins the Week of September 2

Palm Beach County, Fla. – Florida's Turnpike Enterprise is scheduled to begin a widening project along Florida's Turnpike/SR 91, from Boynton Beach Boulevard to Lake Worth Road, the week of September 2 following the Labor Day holiday. This project includes the following improvements:

- Widening Florida's Turnpike from two to three lanes in each direction between the Lantana Toll Plaza and the West Palm Beach Service Plaza
- Reconstructing the Hypoluxo Road bridge over Florida's Turnpike to allow for the new road configuration
- Improving signage, pavement markings, signalization, lighting and drainage
- Constructing sound walls along qualifying residential areas adjacent to Florida's Turnpike

It is anticipated that these improvements will cost \$168 million and construction is expected to be completed in 2024. Please note, this schedule may change due to inclement weather or unforeseen conditions.

Efforts will be made to minimize traffic and noise disruptions, but lane closures, ramp closures and detours will be necessary. Closures will generally take place during off-peak hours and will be announced in advance in the Florida's Turnpike weekly traffic advisory.

For more information about this project, call 1-800-749-PIKE or go to www.floridasturnpike.com. Drivers may dial 5-1-1 for real-time traffic information or visit www.fl511.com before traveling.
