

## Construction Alert

Widening of Florida's Turnpike/SR 91 from North of Boynton Beach Boulevard to North of Lake Worth Road

Beginning the week of January 13, construction of sound barrier walls along northbound Florida's Turnpike, north of Lake Worth Road (Exit 93), adjacent to the Embark at Lake Worth and Willow Bend communities is anticipated to begin.

First, the contractor will remove vegetation that interferes with construction, including trees and/or overhanging branches, within Turnpike property. This will be followed by the construction of wall foundations, wall posts and installation of the panels.

Be advised that while the wall is being built there will be workers, construction vehicles and equipment near your property. Please use caution when letting your pets out in your yard.

Sound wall construction will take place during daytime hours between 6 a.m. and 7 p.m. Please be aware that due to the nature of the construction activities, you will experience some noise while the work takes place near your home.

Please be assured that efforts will be made to limit disruptions for the residents near the construction area. This schedule may change due to inclement weather or unforeseen circumstances.
