<b>Total</b>	<b>\$ 881,831</b>	<b>\$ 10,336</b>	<b>\$ 892,167</b>	<b>\$ 952,510</b>

Monthly revenues are reported, as collected, on a cash basis. Amounts are unaudited and will be adjusted subsequent to fiscal year-end to convert to an accrual basis.

**Notes:**

Tolling on First Coast Expressway commenced July 13, 2019.

TOLL-BY-PLATE invoicing was delayed from June 2018 to December 2018, and resumed in January 2019 due to the transition to a Centralized Customer Service System. February through March 2019 revenue includes significant collections upon these delayed invoices.

In September 2019, tolls were suspended for four to five days for Hurricane Dorian (depending on the Turnpike segment) resulting in an approximate loss of \$12 million.

Because of the public health crisis created by COVID-19, toll transactions and revenue have declined year-over-year beginning with the second week of March 2020, presumably as a result of the rise in telecommuting, self-isolation, and reduced tourist traffic. On April 1, 2020, Florida Governor Ron DeSantis signed an Executive Order limiting movement to obtaining or providing essential services from April 3, 2020, to April 30, 2020. Effective May 4, 2020, the Governor signed an Executive Order to begin the process of reopening the State through a multi-phase, step-by-step process to gradually eliminate restrictions.
