The following item(s) for review and concurrence:

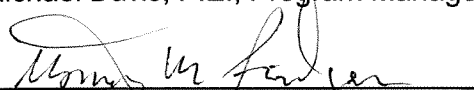

COPIES	DATE	No. of Sheets	DESCRIPTION
1	10/06		Project Description on Key Sheet

REMARKS: The PPM does not require the project description to be called out on the key sheet. With the number of projects the Turnpike carries with in the same county it proves to be beneficial to have the description of the project on the Key Sheet. A fair amount of the consultants do this automatically however several state if it is not called out in the PPM or PPPH they will not provide. Some time ago this issue was brought to the DDE's attention and at that time he concurred with the recommendation. The recommendation is to Volume II Section 3.2.1 of the PPPH and reads as follows:

"Include a descriptive project name under the State Road Number"

Concurrence: 
Michael Davis, P.E., Program Manager
