I am sending you  Attached  
 Under Separate Cover

the following item(s) for review and concurrence:

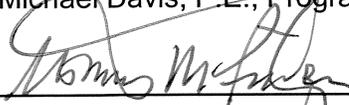

COPIES	DATE	No. of Sheets	DESCRIPTION
1	4/04	1	Notes and matrix the designer shall use for traffic control officer law enforcement.

**REMARKS:** The Standard Specifications only allow for the utilization of law enforcement for three specific conditions. The Turnpike has determined that other conditions may occur on Turnpike projects requiring additional law enforcement. It is the designer's responsibility to present these conditions via a memo with a recommendation. Upon review and concurrence by the Turnpike, the designer will introduce the additional requirements utilizing the attached plan notes and process. The new process will revise the following section of the PPPH as noted.

1. "Chapter 10 Section 10.16.2", add the memo as shown. I recommend the plan notes and matrix for the additional use of law enforcement as well as the other changes be added to the Turnpike's Bulletin Website.

Concurrence:

## **Section 10.16.2 Additional Use of Traffic Control Officer Law Enforcement**

It is the designer's responsibility to identify the need for additional traffic control law enforcement on the project. The locations and or need must be outside the three conditions called out in the specifications and will be brought to the Turnpike's attention by memo calling out the additional locations and these locations are considered a safety issue to the motorist and workman. Upon concurrence with the designers recommendation for the use of additional traffic control law enforcement on the project the following provides the appropriate notes and matrix that the designer will add to the plans:

Note1. FHP Troop K shall serve as the point of contact and scheduling for **all** traffic control needs on the Turnpike. The contractor shall make provisions for a law enforcement officer for traffic control at the specific locations and durations called out in the plans, by contacting the District Commander (The *designer is required to insert the appropriate District Commander and remove all other references*).

The District Commanders are as follows:

**Captain Bradford A. Pelton**, 561-683-4646 Ext 2221. All Turnpike roads in Palm Beach, Martin, St. Lucie, Okeechobee and Indian River Counties

**Captain Jim Brierton**, 305-252-4433 All Turnpike roads in Broward and Miami-Dade Counties.

**Captain Paulette Jones-Morris**, 407- 532-6797 Ext 3221 All Turnpike roads in Osceola, Orange, Lake, Sumter, Seminole, Hillsborough, Polk and Hernando Counties.

Note 2. The contractor **shall** make provisions for a law enforcement officer (FHP Troop K) as required in the Traffic Control Plans and described in this note For example: Use of an officer is required during set-up and take-down of a lane closure. For the number of FHP officers and the hours necessary for each officer, see the FHP Traffic Control Officer Estimate table below. Designer should not include the example with his/her plans.

This paragraph will be included with the table and adjusted accordingly for each project's needs. For example: For this project, the contractor **shall** make provisions for a Traffic Control Officer to be present during the same work period as lane shifts, installation of the temporary barriers and associated lane closures. See the Associated Traffic Control Officer estimate below. Designer should not include the example with his/her plans.

<b>FHP TRAFFIC CONTROL OFFICER ESTIMATE</b>				
Direction/Phase	Number Work Periods	Hours/Work Period	No. Troopers Required	Total FHP Hours
NB Phase I	2	8	1	16
NB Phase II	2	8	1	16
SB Phase I	2	8	1	16
SB Phase II	2	8	1	16
Total FHP				64

This matrix is an example and shall be modified as required for each project. Designer should not include this sentence with his/her plans.
