

Table of Contents

Chapter 1 – Design Controls

1.1	General	<i>No Changes</i>
1.2	Traffic	<i>No Changes</i>
1.3	Capacity and Level of Service	<i>No Changes</i>
1.4	Roadway Functional Classification	<i>No Changes</i>
1.5	RRR Design	<i>1-1</i>
1.5.1	Turnpike Resurfacing, Restoration and Rehabilitation (RRR) Design	<i>1-1</i>
1.6	Design Consistency and Driver Expectancy	<i>No Changes</i>
1.7	Transportation Design for Livable Communities (TDLC)	<i>No Changes</i>
1.7.1	Policy Statement	<i>No Changes</i>
1.7.2	Aesthetics	<i>No Changes</i>
1.8	Access Management	<i>No Changes</i>
1.9	Design Speed	<i>No Changes</i>
1.9.1	Design Speed Coordination and Approvals.....	<i>No Changes</i>
1.10	Public Involvement	<i>No Changes</i>
1.11	Context Sensitive Solutions in Design.....	<i>No Changes</i>
1.12	Design Vehicle.....	<i>1-1</i>
1.13	Turnpike Design Controls.....	<i>1-1</i>
1.13.1	Use of “Interstate” vs. “Freeway Other” vs. “Non Interstate” Criteria.....	<i>1-2</i>

Tables

1.8.1	Freeway Interchange Spacing	<i>No Changes</i>
-------	-----------------------------------	-------------------

1.8.2	Arterial Access Management Classifications & Standards.....	<i>No Changes</i>
1.8.3	Interim Standards (Newly constructed or transferred roads)	<i>No Changes</i>
1.9.1	Design Speed State Highway System –	
	Non-FIHS/SIS Facilities.....	<i>No Changes</i>
1.9.2	Minimum Design Speed FIHS/SIS.....	<i>No Changes</i>

Figures

1.12.1	Florida Interstate Semitrailer (WB-62FL).....	<i>No Changes</i>
--------	---	-------------------

Chapter 2- Design Geometrics and Criteria

2.0	General	<i>No Changes</i>
2.1	Lanes	<i>No Changes</i>
2.1.1	Through or Travel Lanes	<i>No Changes</i>
2.1.2	Other Lane Widths	<i>No Changes</i>
2.1.3	Ramp Traveled Way Widths	<i>No Changes</i>
2.1.4	Pedestrian, Bicycle and Public Transit Facilities.....	<i>No Changes</i>
2.1.4.1	Sidewalks	<i>No Changes</i>
2.1.4.2	Bicycle Facilities	<i>No Changes</i>
2.1.4.3	Public Transit Facilities.....	<i>No Changes</i>
2.1.5	Cross Slopes	<i>2-1</i>
2.1.6	Roadway Pavement	<i>No Changes</i>
2.1.6.1	Alternative Roadway Paving Treatments.....	<i>No Changes</i>
2.1.6.2	Pavement Thickness Transition Guidelines.....	<i>2-1</i>
2.1.7	Transitions of Pavement Widths.....	<i>No Changes</i>
2.1.8	Number of Lanes on the State Highway System	<i>No Changes</i>
2.2	Medians	<i>No Changes</i>
2.2.1	Median Width for Roadways	<i>No Changes</i>

2.2.2	Multilane Facility Median Policy	<i>No Changes</i>
2.2.3	Median Treatments on Bridges	<i>No Changes</i>
2.3	Shoulders	<i>2-1</i>
2.3.1	Limits of Friction Course on Paved Shoulders	<i>2-2</i>
2.3.2	Shoulder Warning Devices (Rumble Strips)	<i>2-2</i>
2.4	Roadside Slopes	<i>No Changes</i>
2.5	Borders	<i>No Changes</i>
2.5.1	Limited Access Facilities	<i>No Changes</i>
2.6	Grades	<i>No Changes</i>
2.7	Sight Distance	<i>No Changes</i>
2.8	Curves	<i>2-2</i>
2.8.1	Horizontal Curves	<i>No Changes</i>
2.8.1.1	Supplemental Alignment Control (Mainline)	<i>No Changes</i>
2.8.1.2	Supplemental Alignment Control (Intersections)	<i>No Changes</i>
2.8.1.3	Roadway Transitions	<i>No Changes</i>
2.8.2	Vertical Curves	<i>2-2</i>
2.8.3	Spiral Curves.....	<i>2-2</i>
2.9	Superelevation.....	<i>No Changes</i>
2.10	Vertical Clearance	<i>No Changes</i>
2.10.1	Vertical Clearance Over Water	<i>No Changes</i>
2.10.2	Airspace Obstructions	<i>No Changes</i>
2.11	Horizontal Clearance and Clear Zone	<i>No Changes</i>
2.12	Bridge Railings and Separators	<i>No Changes</i>
2.13	Intersections	<i>No Changes</i>
2.13.1	Circular Intersections (Roundabouts)	<i>No Changes</i>
2.13.2	Queue Length for Unsignalized Intersections	<i>No Changes</i>

2.13.3	Offset Left Turn Lanes.....	<i>No Changes</i>
2.14	Interchanges and Median Openings/Crossovers.....	<i>No Changes</i>
2.14.1	Limited Access Right of Way Limits at Interchanges	<i>No Changes</i>
2.14.2	Median Openings at Interchanges	<i>No Changes</i>
2.14.3	Ramp Widths	<i>No Changes</i>
2.14.4	Crossovers on Turnpike Facilities.....	2-2
2.15	Lighting Criteria	2-3
2.16	Four-Lane High-Speed Suburban Arterial Highways	<i>No Changes</i>
2.16.1	Design Speed	<i>No Changes</i>
2.16.2	Pedestrian and Bicycle Facilities	<i>No Changes</i>
2.16.3	Medians	<i>No Changes</i>
2.16.4	Friction Course	<i>No Changes</i>
2.16.5	Border Width	<i>No Changes</i>
2.16.6	Grades	<i>No Changes</i>
2.16.7	Horizontal Curves	<i>No Changes</i>
2.16.8	Superelevation	<i>No Changes</i>
2.16.9	Horizontal Clearance.....	<i>No Changes</i>
2.16.10	Monitoring	<i>No Changes</i>
2.17	High Speed Urban Arterial Highways.....	<i>No Changes</i>
	Design Speed	<i>No Changes</i>
2.17.1	Curbs	<i>No Changes</i>
2.17.2	Pedestrian and Bicycle Facilities.....	<i>No Changes</i>
2.17.3	Medians.....	<i>No Changes</i>
2.17.4	Shoulders.....	<i>No Changes</i>
2.17.5	Friction Course.....	<i>No Changes</i>
2.17.6	Border Width.....	<i>No Changes</i>

2.17.7	Grades.....	<i>No Changes</i>
2.17.8	Horizontal Curves.....	<i>No Changes</i>
2.17.10	Superelevation.....	<i>No Changes</i>
2.17.11	Horizontal Clearance.....	<i>No Changes</i>
2.18	Toll Plazas.....	2-4
2.18.1	Horizontal Taper Rates.....	2-4
2.18.2	Cross Slopes and Transitions.....	2-4
2.18.3	Profile Grades.....	2-5
2.18.4	Toll Plaza Clear Zones/Horizontal Clearance.....	2-5
2.18.5	Queue Storage Criteria.....	2-8
2.19	Sodding	2-8
Glossary of Term		<i>No Changes</i>
Standards for Low and High Volume Highways in Annual Average		
Daily Volumes		<i>No Changes</i>

Tables

2.1.1	Lane Widths.....	<i>No Changes</i>
2.1.2	Lane Widths – Special.....	<i>No Changes</i>
2.1.3	Ramp Widths.....	<i>No Changes</i>
2.1.4	Maximum Algebraic Difference in Cross Slope at Turning Roadway Terminals.....	<i>No Changes</i>
2.2.1	Median Widths.....	<i>No Changes</i>
2.3.1	Shoulder Widths and Slopes – Freeways.....	<i>No Changes</i>
2.3.2	Shoulder Widths and Slopes - Arterials Divided.....	<i>No Changes</i>
2.3.3	Shoulder Widths and Slopes - Arterials Undivided.....	<i>No Changes</i>

2.3.4	Shoulder Widths and Slopes - Collectors Divided and Undivided.....	<i>No Changes</i>
2.4.1	Roadside Slopes.....	<i>No Changes</i>
2.5.1	Highways with Flush Shoulders.....	<i>No Changes</i>
2.5.2	Highways with Curb or Curb and Gutter in Urban Areas.....	<i>No Changes</i>
2.6.1	Maximum Grades.....	<i>No Changes</i>
2.6.2	Maximum Change in Grade without Vertical Curves.....	<i>No Changes</i>
2.6.3	Criteria for Grade Datum.....	<i>No Changes</i>
2.6.4	Grade Criteria for Curb and Gutter Sections.....	<i>No Changes</i>
2.7.1	Minimum Stopping Sight Distance.....	<i>No Changes</i>
2.7.2	Minimum Passing Sight Distance.....	<i>No Changes</i>
2.8.1a	Maximum Deflections without Horizontal Curves.....	<i>No Changes</i>
2.8.1b	Maximum Deflection for Through Lanes Through Intersections.....	<i>No Changes</i>
2.8.2a	Length of Horizontal Curves.....	<i>No Changes</i>
2.8.2b	Arc Length (in feet) of Compound Curves with One-Half/Double Radii – Turning Roadways.....	<i>No Changes</i>
2.8.3	Maximum Curvature of Horizontal Curve (Using Limiting Values of “e” and “f”).....	<i>No Changes</i>
2.8.4	Maximum Horizontal Curvature Using Normal Cross Slopes (-0.02).....	<i>No Changes</i>
2.8.5	Minimum Lengths of Crest Vertical Curves Based on Stopping Sight Distance.....	<i>No Changes</i>
2.8.6	Minimum Lengths of Sag Vertical Curves Bases on Stopping Sight Distance and Headlight Sight Distance.....	<i>No Changes</i>

2.9.1	Superelevation Rates for Rural Highways, Urban Freeways and High Speed Urban Highways ($e_{\max}=0.10$).....	<i>No Changes</i>
2.9.2	Superelevation Rates for Urban Highways and High Speed Urban Streets ($e_{\max} = 0.05$).....	<i>No Changes</i>
2.9.3	Superelevation Transition Slope Rates for Rural Highways, Urban Freeways and High Speed Urban Highways.....	<i>No Changes</i>
2.9.4	Superelevation Transition Slope Rates for Urban Highways and High Speed Urban Streets.....	<i>No Changes</i>
2.10.1	Vertical Clearances for Bridges	<i>No Changes</i>
2.10.2	Minimum Vertical Clearances for Signs.....	<i>No Changes</i>
2.10.3	Minimum Vertical Clearances for Signals.....	<i>No Changes</i>
2.10.4	Minimum Vertical Clearances for Overhead Dynamic Message Signs (DMS).....	<i>No Changes</i>
2.10.5	FAA Notification Requirements.....	<i>No Changes</i>
2.11.1	Horizontal Clearance for Traffic Control Signs.....	<i>No Changes</i>
2.11.2	Horizontal Clearance for Light Poles.....	<i>No Changes</i>
2.11.3	Horizontal Clearance for Utility Installations.....	<i>No Changes</i>
2.11.4	Horizontal Clearance to Signal Poles and Controller Cabinets for Signals.....	<i>No Changes</i>
2.11.5	Horizontal Clearance to Trees.....	<i>No Changes</i>
2.11.6	Horizontal Clearance to Bridge Piers and Abutments.....	<i>No Changes</i>
2.11.7	Horizontal Clearance to Railroad Grade Crossing Traffic Control Devices.....	<i>No Changes</i>
2.11.8	Horizontal Clearance to Drop-off and Canal Hazards.....	<i>No Changes</i>
2.11.9	Horizontal Clearance to Other Roadside Obstacles.....	<i>No Changes</i>

2.11.10	Horizontal Clearance for ITS Poles and Related Items.....	<i>No Changes</i>
2.11.11	Recoverable Terrain.....	<i>No Changes</i>
2.14.1	Ramp Widths - Turning Roadways.....	<i>No Changes</i>

Figures

2.0.1	Partial Bridge Sections.....	<i>No Changes</i>
2.0.2	Bridge Section.....	<i>No Changes</i>
2.0.3	Partial Bridge Sections.....	<i>No Changes</i>
2.0.4	Bridge Section.....	<i>No Changes</i>
2.1.1	Standard Pavement Cross Slopes.....	<i>No Changes</i>
2.3.1	Shoulder Superelevation.....	<i>No Changes</i>
2.3.2	Typical Paving Under Bridge.....	<i>No Changes</i>
2.9.1	Superelevation Rate For Rural Highways, Urban Freeways and High Speed Urban Highways ($e_{\max} = 0.10$).....	<i>No Changes</i>
2.9.2	Superelevation Rates for Urban Highways and High Speed Urban Streets ($e_{\max} = 0.05$).....	<i>No Changes</i>
2.10.1	Clearances – Rural and Urban Interstates (Freeways), Arterials and Collectors, with Projected 20-Year ADT of 1500 or Greater.....	<i>No Changes</i>
2.10.2	Clearances – Rural Arterials and Collectors with Projected 20-Year ADT of Less than 1500.....	<i>No Changes</i>
2.10.3	Clearances – Urban Arterials and Collectors (Without Curb and Gutter).....	<i>No Changes</i>
2.10.4	Clearances – Urban Arterials and Collectors (Curb and Gutter).....	<i>No Changes</i>

2.11.1 Horizontal Clearance to Guardrail.....	<i>No Changes</i>
2.12.1 Bridge Traffic Railings – "F" Shapes.....	<i>No Changes</i>
2.12.2 Bridge Traffic Railings – Vertical Shapes.....	<i>No Changes</i>
2.12.3 Bridge Traffic Railings – Other Shapes.....	<i>No Changes</i>
2.12.4 Bridge Traffic Railings – Sound Barrier Combination.....	<i>No Changes</i>
2.12.5 Bridge Railing and Separators – Median Traffic Railing and Separators.....	<i>No Changes</i>
2.12.6 Bridge Fencing for Traffic Railings.....	<i>No Changes</i>
2.12.7 Bridge Railing – Pedestrian / Bicycle Railing.....	<i>No Changes</i>
2.12.8 Bridge Fencing for Pedestrian Railing.....	<i>No Changes</i>
2.12.9 Enclosed Bridge Fencing for Pedestrian Railing.....	<i>No Changes</i>
2.13.1 Typical Opposing Left Turns (22' Median with Negative 10' Offset).....	<i>No Changes</i>
2.13.2 Typical Opposing Left Turns (22' Median with Negative 1' Offset).....	<i>No Changes</i>
2.13.3 Left Turn Offset Guidelines.....	<i>No Changes</i>
2.14.1 Crossovers on Limited Access Facilities – 6 or More Lanes.....	<i>No Changes</i>
2.14.2 Crossovers on Limited Access Facilities – 4 Lanes..	<i>No Changes</i>
2.14.3 Median Barrier Opening for Crossovers on Limited Access Facilities.....	<i>No Changes</i>
2.16.1 Curb and Gutter Section.....	<i>No Changes</i>
2.16.2 Flush Shoulder Section.....	<i>No Changes</i>
2.16.3 Superelevation Rates for High-Speed Urban or Suburban Sections.....	<i>No Changes</i>
Chapter 3 – Earthwork	
3.1 General Introduction	<i>No Changes</i>

3.1.1	General	<i>No Changes</i>
3.2	Classification of Soils	<i>No Changes</i>
3.3	Cross Sections - A Design Tool	<i>No Changes</i>
3.4	Earthwork Quantities	<i>No Changes</i>
3.4.1	Method of Calculating	<i>No Changes</i>
3.4.2	Earthwork Tabulation	<i>No Changes</i>
3.4.3	Earthwork Accuracy	<i>No Changes</i>
3.4.3.1	Projects With Horizontal and Vertical Controlled Cross Sections	<i>No Changes</i>
3.4.3.2	Projects Without Horizontal and Vertical Controlled Cross Sections	<i>No Changes</i>
3.4.4	Variation in Quantities	<i>No Changes</i>
3.5	Earthwork Items of Payment	<i>No Changes</i>
3.5.1	Guidelines for Selecting Earthwork Pay Items	<i>No Changes</i>
3.5.2	Regular Excavation	<i>No Changes</i>
3.5.3	Embankment	<i>No Changes</i>
3.5.4	Subsoil Excavation	<i>No Changes</i>
3.5.5	Lateral Ditch Excavation	<i>No Changes</i>
3.5.6	Channel Excavation	<i>No Changes</i>
3.5.7	Borrow Excavation (Truck Measure)	<i>No Changes</i>
3.5.8	Regular Excavation (RRR Projects Only)-Lump Sum	<i>No Changes</i>
3.5.9	Summary of Earthwork.....	<i>3-1</i>

Tables

3.5.1	Guidelines for Selecting Earthwork Pay Items	<i>No Changes</i>
-------	--	-------------------

Figures

3.1.1	Cut and Fill Limits (With and Without Subsoil Excavation)	<i>No Changes</i>
3.4.1	Format for the Tabulation of Earthwork Quantities	<i>No Changes</i>
3.5.1	Pond Template	<i>No Changes</i>

Exhibits

3-A	Fill and Truck Adjustments	<i>No Changes</i>
3-B	Summary of Earthwork Box (Projects With Cross Sections).....	<i>No Changes</i>
3-C	Summary of Earthwork Box (Projects With Limited or No Cross Sections)	<i>No Changes</i>

Chapter 4 – Roadway Safety

4.1	Clear Zone	<i>No Changes</i>
4.1.1	Clear Zone Concept	<i>No Changes</i>
4.1.2	Clear Zone Criteria	<i>No Changes</i>
4.2	Hazard Standards	<i>No Changes</i>
4.2.1	Canal Hazards	<i>No Changes</i>
4.2.2	Drop-off Hazards	<i>No Changes</i>
4.3	Roadside Barriers	<i>No Changes</i>
4.3.1	Warrants	<i>No Changes</i>
4.3.2	Barrier Selection	<i>No Changes</i>
4.3.3	End Treatments	<i>No Changes</i>
4.3.4	Transitions.....	<i>No Changes</i>
4.3.5	Placement	<i>No Changes</i>
4.3.6	Upgrading Existing Barrier Systems	<i>No Changes</i>

4.3.6.1	Resetting Guardrail	<i>No Changes</i>
4.4	Median Barriers	<i>No Changes</i>
4.4.1	Warrants	<i>No Changes</i>
4.4.2	Selection	<i>No Changes</i>
4.4.3	End Treatments	<i>No Changes</i>
4.4.4	Median Barrier Grading Requirements	<i>4-1</i>
4.5	Crash Cushions	<i>No Changes</i>
4.5.1	Warrants	<i>No Changes</i>
4.5.2	Selection	<i>No Changes</i>
4.5.3	Design	<i>No Changes</i>
4.6	Roadside Appurtenances	<i>No Changes</i>
4.6.1	Sign Supports	<i>No Changes</i>
4.6.2	Mailbox Supports	<i>No Changes</i>
4.6.3	Other Appurtenances	<i>No Changes</i>
4.6.4	Location Criteria	<i>No Changes</i>
4.6.5	Bus Benches and Transit Shelters	<i>No Changes</i>

Tables

4.3.1 Minimum Offset of Barriers

(Measured from the face of the barrier)	<i>No Changes</i>
---	-------------------

Figures

4.1.2.1 Clear Zone Plan View.....	<i>No Changes</i>
4.1.2.2 Clear Zone Cross Section.....	<i>No Changes</i>
4.2.2 Drop-off Hazards in Urban Sections	<i>No Changes</i>
4.3.1 Placement of Curb – Guardrail Combinations.....	<i>No Changes</i>

Exhibits

4-A	Minimum Standards for Canal Hazards (Rural and Urban Flush Shoulders).....	<i>No Changes</i>
4-B	Minimum Standards for Canal Hazards (Urban Curb or Curb and Gutter).....	<i>No Changes</i>

Chapter 5 – Utilities

5.1	General	<i>No Changes</i>
5.2	Utility Accommodation Manual	<i>No Changes</i>
5.3	Location of Existing Utilities	<i>5-1</i>
5.3.1	Quality Levels of Utility Locates.....	<i>No Changes</i>
5.4	Subsurface Utility Engineering	<i>No Changes</i>
5.5	Coordination Process	<i>No Changes</i>

Chapter 6 – Railroad Crossing

6.1	General	<i>No Changes</i>
6.2	At-Grade Crossings	<i>No Changes</i>
6.2.1	Devices	<i>No Changes</i>
6.2.2	Surfaces	<i>No Changes</i>
6.3	Grade Separations	<i>No Changes</i>
6.3.1	Criteria	<i>No Changes</i>
6.3.2	Bridge Width	<i>No Changes</i>
6.3.3	Horizontal Clearances to Face of Structures	<i>No Changes</i>
6.3.3.1	Adjustments for Track Geometry	<i>No Changes</i>
6.3.3.2	Adjustments for Physical Obstructions	<i>No Changes</i>

6.3.3.3 Required Foundation Clearances	<i>No Changes</i>
6.3.4 Crash Walls	<i>No Changes</i>
6.3.5 Vertical Clearance	<i>No Changes</i>
6.3.6 Special Considerations	<i>No Changes</i>
6.3.7 Widening of Existing Overpasses	<i>No Changes</i>

Tables

6.3.3 Horizontal Clearances for Railroads	<i>No Changes</i>
---	-------------------

Figures

6.1 Track Section	<i>No Changes</i>
6.2 Section Thru Tracks	<i>No Changes</i>

Chapter 7 – Traffic and ITS Design

7.1 General	<i>No Changes</i>
7.2 Signing and/or Pavement Marking	<i>No Changes</i>
7.2.1 Design Criteria	7-1
7.2.2 Wind Loading Criteria – Signs	<i>No Changes</i>
7.2.3 No-passing Zones	<i>No Changes</i>
7.2.4 Use of Local Street Names on Guide Signs	<i>No Changes</i>
7.2.5 Signing and Pavement Marking Project Coordination	<i>No Changes</i>
7.2.6 Foundation Criteria	<i>No Changes</i>
7.2.7 Signing for Bridges with Steel Decks	<i>No Changes</i>
7.2.8 Guidance on Use of Various Pavement Marking Materials	7-2
7.2.8.1 Maintenance of Traffic Applications.....	7-2

7.2.8.2	Permanent Marking Applications.....	7-2
7.2.9	Toll Plazas.....	7-2
7.2.9.1	Approach Signing for Mainline Toll Plazas.....	7-2
7.2.9.2	Approach Signing for Ramp Toll Plazas.....	7-2
7.2.9.3	Canopy Signing.....	7-3
7.2.9.4	Pavement Markings.....	7-3
7.2.9.5	SunPass.....	7-3
7.2.9.5.1	Signing.....	7-3
7.2.9.5.2	Pavement Markings.....	7-4
7.2.9.6	Sign Sheeting.....	7-4
7.3	Lighting	7-4
7.3.1	Design Criteria	7-5
7.3.2	Pole Design Criteria	7-6
7.3.2.1	General	7-7
7.3.2.2	Standard Aluminum Light Poles	<i>No Changes</i>
7.3.3	Foundations Criteria	7-7
7.3.4	Wind Loading Criteria - Lighting	<i>No Changes</i>
7.3.5	Lighting Project Coordination	7-8
7.3.6	Voltage Drop Criteria	7-8
7.3.6.1	Load Analysis Criteria	7-8
7.3.6.2	Pole Cable Distribution System	7-8
7.3.7	Maintenance of Existing Lighting During Construction ...	<i>No Changes</i>
7.3.8	Grounding	<i>No Changes</i>
7.3.9	Mainline Toll Plaza	7-9
7.4	Traffic Signals	7-9
7.4.1	Design Criteria	7-9

7.4.1.1	Lane Use Control Signals.....	7-9
7.4.2	Certification and Specialty Items	7-10
7.4.3	Stop Line Location	<i>No Changes</i>
7.4.4	Controller Assemblies	<i>No Changes</i>
7.4.5	Left Turn Treatments	<i>No Changes</i>
7.4.6	Signal Preemption	<i>No Changes</i>
7.4.7	Intersection Design - Lane Configuration	<i>No Changes</i>
7.4.8	Signal Loops	<i>No Changes</i>
7.4.9	Grounding and Electrical Bonding.....	<i>No Changes</i>
7.4.10	Wind Loading - Traffic Signals	<i>No Changes</i>
7.4.11	Foundation Criteria	<i>No Changes</i>
7.4.12	Mast Arm Supports.....	<i>No Changes</i>
7.4.12.1	Mast Arm Supports.....	<i>No Changes</i>
7.4.12.2	Standard Monotube Signal Structures.....	<i>No Changes</i>
7.4.13	Traffic Signal Project Coordination	7-10
7.4.14	LED Light Sources	<i>No Changes</i>
7.4.15	Pedestrian Countdown Signal Applications.....	<i>No Changes</i>
7.5	Intelligent Transportation System (ITS) Components	<i>No Changes</i>
7.5.1	Design Criteria	<i>No Changes</i>
7.5.2	ITS Device Approval and Compatibility.....	<i>No Changes</i>
7.5.3	Required Information	<i>No Changes</i>
7.5.4	Motorist Information Systems.....	<i>No Changes</i>
7.5.4.1	Dynamic Message Sign (DMS).....	<i>No Changes</i>
7.5.4.2	Highway Advisory Radio	<i>No Changes</i>
7.5.5	Video Equipment.....	<i>No Changes</i>
7.5.5.1	Closed-circuit Television Cameras	<i>No Changes</i>

7.5.5.2 Video Display Equipment.....	<i>No Changes</i>
7.5.6 Network Devices	<i>No Changes</i>
7.5.6.1 Managed Field Ethernet Switch	<i>No Changes</i>
7.5.6.2 Device Server	<i>No Changes</i>
7.5.6.3 Digital Video Encoder and Decoder.....	<i>No Changes</i>
7.5.7 Fiber Optic Cable and Interconnect	<i>No Changes</i>
7.5.7.1 Fiber Optic Cable	<i>No Changes</i>
7.5.7.2 Fiber Optic Conduit	<i>No Changes</i>
7.5.7.3 Fiber Optic Splices and Terminations	<i>No Changes</i>
7.5.7.4 Fiber Optic Cable Designating System	<i>No Changes</i>
7.5.7.5 Fiber Optic Access Points.....	<i>No Changes</i>
7.5.8 Infrastructure.....	<i>No Changes</i>
7.5.8.1 Grounding and Transient Voltage Surge Suppression.....	<i>No Changes</i>
7.5.8.2 ITS Pole and Lowering Device.....	<i>No Changes</i>
7.5.8.3 ITS Field Cabinet	<i>No Changes</i>
7.5.9 Vehicle Detection and Data Collection.....	<i>No Changes</i>
7.5.9.1 Microwave Vehicle Detection System.....	<i>No Changes</i>
7.5.9.2 Video Vehicle Detection System.....	<i>No Changes</i>
7.5.9.3 Magnetic Traffic Detection System	<i>No Changes</i>
7.5.9.4 Acoustic Vehicle Detection System	<i>No Changes</i>
7.6 Foundation Design	<i>No Changes</i>

Tables

7.2.1 Number of Luminaires for Various Sign Widths.....	<i>No Changes</i>
---	-------------------

7.3.1	Conventional Lighting - Roadways	<i>No Changes</i>
7.3.2	Highmast Lighting - Roadways	<i>No Changes</i>
7.3.3	Underdeck Lighting - Roadways	<i>No Changes</i>
7.3.4	Rest Area Lighting	<i>No Changes</i>
7.3.5	Mounting Height Restrictions	<i>No Changes</i>

Chapter 8 – Pedestrian and Bicycle Facilities

8.1	General	<i>No Changes</i>
8.2	References	<i>No Changes</i>
8.3	Pedestrian Facilities	<i>No Changes</i>
8.3.1	Sidewalks	<i>No Changes</i>
8.3.2	Disability Considerations	<i>No Changes</i>
8.3.3	Marked Crosswalks at Uncontrolled Locations.....	<i>No Changes</i>
8.3.3.1	Midblock Crosswalks.....	<i>No Changes</i>
8.4	Bicycle Facilities	<i>No Changes</i>
8.4.1	Bicycle Lanes (Designated)	<i>No Changes</i>
8.4.2	Bicycle Lanes (Undesignated)	<i>No Changes</i>
8.4.3	Bicycle Route Systems	<i>No Changes</i>
8.5	Drainage and Utility Considerations	<i>No Changes</i>
8.6	Shared Use Paths	<i>No Changes</i>
8.6.1	Considerations	<i>No Changes</i>
8.6.2	Widths	<i>No Changes</i>
8.6.3	Cross Slopes	<i>No Changes</i>
8.6.4	Grades	<i>No Changes</i>
8.6.5	Horizontal Clearance	<i>No Changes</i>
8.6.6	Vertical Clearance	<i>No Changes</i>

8.6.7	Design Speed	<i>No Changes</i>
8.6.8	Horizontal Alignment	<i>No Changes</i>
8.6.8.1	Minimum Radii	<i>No Changes</i>
8.6.8.2	Stopping Sight Distance	<i>No Changes</i>
8.6.9	Vertical Alignment	<i>No Changes</i>
8.6.10	Separation Between Shared Use Path and Roadway	<i>No Changes</i>
8.6.11	Path Railings	<i>No Changes</i>
8.6.12	Lighting	<i>No Changes</i>
8.6.13	Signing, Pavement Marking, and Signalization	<i>No Changes</i>
8.7	Bridges, Overpasses, and Underpasses	<i>No Changes</i>
8.8	Drop-off Hazards for Pedestrians and Bicyclists	<i>No Changes</i>
8.9	Florida Intrastate Highway System/Strategic Intermodal System.....	<i>No Changes</i>
8.10	Public Transit Facilities.....	<i>No Changes</i>
8.10.1	Curb-Side Facilities.....	<i>No Changes</i>
8.10.2	Street-Side Facilities.....	<i>No Changes</i>

Tables

8.6.4	Maximum Grade Lengths	<i>No Changes</i>
8.6.8.1	Minimum Radii for Shared Use Paths	<i>No Changes</i>
8.6.8.2	Minimum Stopping Sight Distances	<i>No Changes</i>

Figures

8.1	Pedestrian/Shared Use Path Bridge Typical Section	<i>No Changes</i>
8.2	Drop-Off Hazards for Pedestrians and Bicyclists	<i>No Changes</i>

Chapter 9 – Landscaping

9.1	General	9-1
9.2	Maintenance Plan	No Changes
9.3	Cost Estimate.....	No Changes
9.4	Community Identification Structures and Landscapes.....	No Changes
9.4.1	Design Criteria.....	No Changes

Chapter 10 – Transportation Management Plan

10.1	General	No Changes
10.2	References	10-1
10.2.1	Design Standards.....	No Changes
10.3	Transportation Management Plan (TMP).....	No Changes
10.3.1	Transportation Management Plan Components.....	No Changes
10.3.1.1	Temporary Traffic Control (TCC).....	10-1
10.3.1.1.1	TTC Plan Development.....	10-1
10.3.1.1.2	TTC Plan Phase Submittals.....	No Changes
10.3.1.2	Transportation Operations (TO).....	No Changes
10.3.1.3	Public Information (PI).....	No Changes
10.4	Coordination	No Changes
10.5	Work Zone Traffic Control Training	No Changes
10.5.1	Background	No Changes
10.5.2	Training Requirements	No Changes
10.6	Traffic Control Devices	No Changes
10.7	Signs	10-2
10.7.1	Advance Warning Signs	No Changes
10.7.2	Length of Construction Sign	No Changes
10.7.3	Existing Signs	No Changes

10.8	Lighting Units	<i>No Changes</i>
10.8.1	Warning Lights	<i>No Changes</i>
10.8.2	Advance Warning Arrow Panels	<i>No Changes</i>
10.8.3	Changeable (Variable) Message Signs	<i>No Changes</i>
10.8.4	Traffic Signals	<i>No Changes</i>
10.9	Channelizing Devices	<i>No Changes</i>
10.9.1	Type III Barricades	<i>No Changes</i>
10.9.2	Separation Devices	<i>No Changes</i>
10.9.3	Channelizing Device Alternates	<i>No Changes</i>
10.10	Pavement Markings	<i>10-2</i>
10.10.1	Removing Pavement Markings	<i>10-2</i>
10.10.2	Raised Retro-Reflective Pavement Markers (RPM)	<i>No Changes</i>
10.10.3	Work Zone Markings	<i>No Changes</i>
10.11	Safety Appurtenances for Work Zones	<i>No Changes</i>
10.11.1	Traffic Barriers	<i>No Changes</i>
10.11.2	Barrier Walls (Temporary)	<i>No Changes</i>
10.11.3	End Treatments	<i>No Changes</i>
10.11.4	Modifications of Existing Barriers	<i>No Changes</i>
10.11.5	Crash Cushions	<i>No Changes</i>
10.12	Temporary Traffic Control Plan Details	<i>10-3</i>
10.12.1	Taper Lengths	<i>No Changes</i>
10.12.2	Intersecting Road Signing and Signals	<i>No Changes</i>
10.12.3	Sight Distance to Delineation Devices	<i>No Changes</i>
10.12.4	Pedestrians and Bicyclists	<i>No Changes</i>
10.12.4.1	Pedestrian Considerations.....	<i>No Changes</i>
10.12.4.2	Bicycle Considerations.....	<i>No Changes</i>

10.12.5	Superelevation.....	10-3
10.12.6	Lane Widths.....	10-3
10.12.7	Lane Closure Analysis.....	10-3
10.12.8	Pacing Specification (a.k.a. Rolling Roadblock).....	<i>No Changes</i>
10.12.8.1	Traffic Pacing.....	10-4
10.12.9	Detours, Diversions, and Lane Shifts.....	<i>No Changes</i>
10.12.10	Above Ground Hazards.....	<i>No Changes</i>
10.12.11	Drop-offs in Work Zones	10-5
10.12.12	Narrow Bridges and Roadways	10-5
10.12.13	Existing Highway Lighting	<i>No Changes</i>
10.12.14	Work Area Access	<i>No Changes</i>
10.12.15	Railroads	<i>No Changes</i>
10.12.16	Pay Items and Quantities	<i>No Changes</i>
10.12.17	Temporary Drainage	10-6
10.12.18	Temporary Retaining Walls	10-6
10.12.19	Friction Course on Temporary Pavement	10-6
10.12.20	Temporary Barrier Wall Tape.....	10-6
10.12.21	Reflective Pavement Markers.....	10-7
10.13	Speed Zoning	10-7
10.13.1	Regulatory Speeds in Work Zones	10-7
10.14	Law Enforcement Services	<i>No Changes</i>
10.14.1	Use of Speed and Law Enforcement Officers	<i>No Changes</i>
10.14.2	Use of Traffic Control Officer	10-7
10.14.3	Coordination, Documentation and Payment	<i>No Changes</i>
10.14.4	Other Uses of Law Enforcement	<i>No Changes</i>
10.15	Motorist Awareness System (MAS)	<i>No Changes</i>

10.15.1	Portable Regulatory Signs (PRS)	<i>No Changes</i>
10.15.2	Radar Speed Display Unit (RSDU)	<i>No Changes</i>
10.15.3	Speed and Law Enforcement Officer	<i>No Changes</i>
10.16	Toll Plaza Temporary Traffic Control.....	<i>10-8</i>

Tables

10.12.1	Taper Length Criteria for Work Zones	<i>No Changes</i>
10.12.2	Minimum Radii for Normal 0.02 Cross Slopes	<i>No Changes</i>

Exhibits

10-A	Lane Closures	<i>No Changes</i>
10-B	Lane Closure Policy and Procedure	<i>10-9</i>

Chapter 11 – Storm Water Pollution Prevention Plan

11.1	General	<i>No Changes</i>
------	---------------	-------------------

Chapter 12 – Right of Way

12.1	General	<i>12-1</i>
12.2	Procedures for Establishing R/W Requirements	<i>No Changes</i>
12.2.1	Open Cut and Fill Roadway Sections	<i>No Changes</i>
12.2.2	Curb and Gutter Roadway Section	<i>No Changes</i>
12.2.3	Access Management	<i>12-1</i>
12.2.4	Procedures for Decision Making	<i>No Changes</i>
12.2.5	Transmittal of R/W Requirements	<i>No Changes</i>
12.3	Process for Establishing Right of Way Requirements	<i>No Changes</i>
12.3.1	New or Major Reconstruction Projects	<i>No Changes</i>

12.3.2	Reconstruction Projects With Anticipated R/W Requirements	<i>No Changes</i>
12.3.3	Projects Without an Identified R/W Phase	<i>No Changes</i>
12.4	Property Owner Contacts	<i>12-1</i>
12.5	Construction Issues	<i>12-2</i>

Figures

12.3.3	R/W Requirements Generalized Process Flow Diagram	<i>No Changes</i>
--------	---	-------------------

Chapter 13 – Initial Engineering Design Process

13.1	General	<i>No Changes</i>
13.2	Initial Engineering Design (Phase I)	<i>13-1</i>
13.3	Scope, Objectives, Schedule and Budget	<i>No Changes</i>
13.4	Project Design Controls and Standards	<i>No Changes</i>
13.5	Support Services	<i>No Changes</i>
13.5.1	Aviation Office Coordination	<i>No Changes</i>
13.5.2	Hazardous Materials on Bridges.....	<i>No Changes</i>
13.5.2.1	Projects Involving Steel Bridges.....	<i>No Changes</i>
13.5.2.2	Projects Involving Bridge Demolition or Renovation.....	<i>13-1</i>
13.5.3	Projects Involving Bridges Over Navigable Water.....	<i>No Changes</i>
13.5.4	Projects Affecting Interstate Logo Signs.....	<i>No Changes</i>
13.5.5	Buy America Provisions.....	<i>No Changes</i>
13.5.6	Traffic Monitoring Sites.....	<i>No Changes</i>
13.6	Preliminary Geometry, Grades, and Cross Sections	<i>No Changes</i>
13.7	Distribution of Exempt Public Documents.....	<i>No Changes</i>

Tables

13.5.1 Construction of Airspace Obstructions – Notification	<i>No Changes</i>
---	-------------------

Exhibits

13-A Major Activities – Initial Engineering Process	<i>No Changes</i>
---	-------------------

Chapter 14 – Final Engineering Design Process

14.1 General	<i>No Changes</i>
14.2 Final Engineering Design	<i>No Changes</i>
14.3 Contract Plans Preparation	<i>No Changes</i>
14.4 Specifications and Special Provisions	<i>14-1</i>
14.5 Pay Items and Summaries of Quantities	<i>14-1</i>
14.6 Assemble Contract Plans Package	<i>14-1</i>

Exhibits

14-A Major Activities – Final Engineering Design Process	<i>14-2</i>
--	-------------

Chapter 15 – Update Engineering Design Process

15.1 General	<i>No Changes</i>
15.2 Design Update Review and Decision Process	<i>No Changes</i>
15.3 Updating Engineering Design and Documents	<i>No Changes</i>
15.4 Revised Contract Plans Package	<i>No Changes</i>

Exhibits

15-A Major Activities - Update Engineering Design Process	<i>No Changes</i>
---	-------------------

Chapter 16 – Design Submittals

16.1	General	<i>No Changes</i>
16.2	Design Documentation Submittals	<i>No Changes</i>
16.2.1	Field Survey Data	<i>No Changes</i>
16.2.2	Project Traffic	<i>No Changes</i>
16.2.3	Typical Section Package	<i>16-1</i>
16.2.4	Preliminary Drainage Design	<i>16-2</i>
16.2.5	Preliminary Geometry and Grades	<i>16-2</i>
16.2.5.1	Turnpike Preliminary Line and Grade Submittal.....	<i>16-2</i>
16.2.6	Preliminary Traffic Control Plan	<i>16-3</i>
16.2.7	Pavement Selection and Design	<i>16-3</i>
16.2.7.1	Turnpike Pavement Design Submittals.....	<i>16-3</i>
16.2.8	Preliminary Utilities	<i>No Changes</i>
16.3	Structures Submittals	<i>No Changes</i>
16.3.1	Coordination of Structural Design – (Bridges and Retaining Walls)	<i>No Changes</i>
16.3.2	Bridges	<i>No Changes</i>
16.3.3	Other Structural Submittals and Reviews	<i>No Changes</i>
16.4	Plans Phase Reviews	<i>No Changes</i>
16.4.1	Phase III Submittals	<i>16-3</i>
16.4.2	Phase IV Submittals	<i>16-3</i>
16.4.3	Final Submittal	<i>16-5</i>
16.4.3.1	Full Electronic Seal.....	<i>16-5</i>
16.4.3.2	Partial Electronic Seal.....	<i>16-5</i>
16.4.3.3	Architectural Plans.....	<i>16-5</i>
16.4.4	Bid CD.....	<i>16-5</i>

Exhibits

16-A	List of Requests and Contacts.....	<i>No Changes</i>
16-B	Typical Section Package.....	<i>No Changes</i>
16-C	Building	<i>16-7</i>
16-D	Certification of Plans, Specifications and Quantities.....	<i>16-8</i>

Chapter 17 – Engineering Design Estimate Process

17.1	General	<i>No Changes</i>
17.2	Pay Item List	<i>No Changes</i>
17.3	Designer Interface for TRNS*PORT	<i>No Changes</i>
17.4	Estimated Quantities	<i>No Changes</i>
17.4.1	Computation Book and Summary of Quantities	<i>17-1</i>
17.4.1.1	Plan Quantity	<i>No Changes</i>
17.4.1.2	Final Measurement Concept	<i>No Changes</i>
17.4.2	Breakdown of Quantities	<i>No Changes</i>
17.4.3	Utility Contract Plans (Joint Project Agreements)	<i>No Changes</i>
17.4.4	Plan Notes	<i>No Changes</i>
17.5	Specifications (Method of Measurement)	<i>No Changes</i>
17.6	Pay Items	<i>No Changes</i>
17.7	Contract Time	<i>No Changes</i>
17.8	Alternative Contracting Practices	<i>17-1</i>

Exhibits

17-A	Major Activities - Engineering Design Estimate Process	<i>No Changes</i>
------	--	-------------------

Chapter 18 – Quality Assurance & Quality Control

18.1	General	<i>No Changes</i>
18.2	Quality Assurance	<i>No Changes</i>
18.2.1	Authority	<i>No Changes</i>
18.2.2	Accountability	<i>No Changes</i>
18.2.3	Critical Areas to be Monitored	<i>No Changes</i>
18.2.4	Documentation	<i>No Changes</i>
18.2.5	Training	<i>No Changes</i>
18.3	Quality Control	<i>No Changes</i>
18.3.1	Authority	<i>No Changes</i>
18.3.2	Accountability	<i>No Changes</i>
18.3.3	Critical Areas to be Monitored	<i>No Changes</i>
18.3.4	Documentation	<i>No Changes</i>
18.3.5	Training	<i>No Changes</i>
18.4	Turnpike Quality Control and Assurance Process	<i>18-1</i>
18.4.1	Quality Goals and General Requirements	<i>18-1</i>
18.4.2	Quality Control Procedure Requirement	<i>18-3</i>
18.4.2.1	Completion Checklists Requirements	<i>18-3</i>
18.4.2.2	Quality Control Tracking Stamp Requirements	<i>18-3</i>
18.4.2.3	Quality Process Log Requirements	<i>18-4</i>
18.4.2.4	Standard Documentation Procedure	<i>18-4</i>
18.4.3	Definitions	<i>18-4</i>

Exhibits

18-A	Project Staffing List	<i>18-6</i>
18-B	Quality Process Log	<i>18-11</i>

18-C Certificate of Compliance	18-12
--------------------------------------	-------

Chapter 19 – Sealing Design Documents

19.1 General	No Changes
19.2 Sealing of Contract Plans/Record Set	No Changes
19.2.1 Manual Sealing	No Changes
19.2.2 Electronic Sealing	No Changes
19.3 Sealing Other Engineering Documents	19-1
19.4 Sealing of Revisions	No Changes
19.4.1 Plans	No Changes
19.4.2 Other Engineering Documents	No Changes
19.5 Support Documents	No Changes
19.5.1 18 KIP Equivalent Single Axle Loads (ESAL)	No Changes
19.5.2 Project Traffic	No Changes

Chapter 20 – Plans Processing and Revisions

20.1 General	No Changes
20.2 Glossary	No Changes
20.3 Plans Processing	No Changes
20.3.1 District Activities	No Changes
20.3.2 Submittal to Tallahassee	20-1
20.4 Revisions to the Contract Plans Package	20-1
20.5 Resubmittal of Withdrawn Project	No Changes

Figures

20.1 Plans Processing Thru Tallahassee.....	No Changes
---	------------

20.2 District Revisions	<i>No Changes</i>
20.3 Method to Show Plan Changes or Revisions.....	20-2

Exhibits

20-A Transmittal of Plans, Specifications and Estimates Package.....	<i>No Changes</i>
20-B Contract File Index	<i>No Changes</i>
20-C Revision Memo	<i>No Changes</i>
20-D Status of Environmental Certification.....	<i>No Changes</i>
20-E Plans, Specifications and Computation Book	<i>No Changes</i>
20-F Project Certification to Federal Standards	<i>No Changes</i>
20-G Preliminary Engineering Certification	<i>No Changes</i>
20-H Request for Control Group Change	<i>No Changes</i>
20-I Change Memo	<i>No Changes</i>
20-J Turnpike Enterprise Electronic Plan Revision Procedure (Post Letting)...	20-4

Chapter 21 – Transportation Design for Livable Communities

21.1 General	<i>No Changes</i>
21.2 Planning	<i>No Changes</i>
21.3 Application	<i>No Changes</i>
21.4 Techniques	<i>No Changes</i>
21.5 Design Criteria	<i>No Changes</i>
21.5.1 Design Speed	<i>No Changes</i>
21.5.2 Number of Lanes	<i>No Changes</i>
21.5.3 Lane Widths	<i>No Changes</i>
21.5.4 Horizontal Alignment	<i>No Changes</i>
21.5.5 Medians	<i>No Changes</i>
21.5.6 Horizontal Clearance	<i>No Changes</i>
21.5.7 Intersections	<i>No Changes</i>

21.5.8	Lighting	<i>No Changes</i>
21.5.9	Traffic Control	<i>No Changes</i>
21.5.10	Landscaping	<i>No Changes</i>
21.5.11	Parking	<i>No Changes</i>
21.5.12	Alternative Roadway Paving Treatments.....	<i>No Changes</i>
21.5.13	Conversion to One-Way Pairs	<i>No Changes</i>
21.6	Pedestrian and Bicycle Considerations	<i>No Changes</i>
21.6.1	Sidewalks	<i>No Changes</i>
21.6.2	Crosswalks	<i>No Changes</i>
21.6.3	Curb Extensions (Bulb-Outs)	<i>No Changes</i>
21.6.4	Personal Security and Safety Amenities	<i>No Changes</i>
21.6.5	Bicycle Facilities	<i>No Changes</i>
21.7	Transit-Systems and Amenities	<i>No Changes</i>

Tables

21.1	Lane Widths	<i>No Changes</i>
21.2	Horizontal Clearance to Utility Installations	<i>No Changes</i>
21.3	Horizontal Clearance to Trees	<i>No Changes</i>
21.4	Horizontal Clearance to Drop –Off and Canal.....	<i>No Changes</i>
21.5	Horizontal Clearance to Other Roadside Obstacles	<i>No Changes</i>
21.6	TDLC Clear Terrain.....	<i>No Changes</i>

Figures

21.1	Curb Extension	<i>No Changes</i>
------	----------------------	-------------------

Exhibits

21-A General Techniques	<i>No Changes</i>
21-B Techniques To Reduce Speed Or Traffic Volume	<i>No Changes</i>
21-C Techniques To Support Shifts Between Modes	<i>No Changes</i>
21-D Area-Wide Techniques	<i>No Changes</i>

Chapter 22 – Lump Sum Project Guidelines

22.1 General	<i>No Changes</i>
22.2 Project Selection	<i>No Changes</i>
22.3 Plans Preparation	<i>No Changes</i>
22.4 Preliminary Estimate	<i>No Changes</i>
22.5 Specifications	<i>No Changes</i>
22.6 Contracts Administration	<i>No Changes</i>
22.7 Construction Contract Administration	<i>No Changes</i>
22.8 Materials Sampling and Testing	<i>No Changes</i>

Exhibits

22-A Items of Work	<i>No Changes</i>
--------------------------	-------------------

Chapter 23 –Exceptions and Variations

23.1 General	<i>No Changes</i>
23.2 Identification.....	<i>No Changes</i>
23.3 Approval.....	23-1
23.3.1 Turnpike Design Exceptions.....	23-1
23.3.2 Turnpike Design Variations.....	23-1
23.4 Justification for Central Office Approval.....	<i>No Changes</i>

23.5	Documentation for Central Office Approval.....	<i>No Changes</i>
23.6	Central Office Submittal and Approval.....	<i>No Changes</i>
23.7	Central Office Denial and Resubmittal.....	<i>No Changes</i>
23.8	Design Variations Needing District Approval Only.....	<i>No Changes</i>
23.9	AASHTO Criteria for Controlling Design Elements.....	<i>No Changes</i>

Tables

Criteria Tables Cross Reference	<i>No Changes</i>
---------------------------------------	-------------------

Exhibits

23-A	Submittal/Approval Letter.....	<i>No Changes</i>
------	--------------------------------	-------------------

Chapter 24 – Federal Aid Project Certification

24.1	General	<i>No Changes</i>
24.2	Exemption Coverage	<i>No Changes</i>
24.2.1	Exclusions	<i>No Changes</i>
24.3	Certification Responsibilities	<i>No Changes</i>
24.4	Certification Documentation and Reviews	<i>No Changes</i>
24.5	Certification Statement	<i>No Changes</i>

Exhibits

24-A	Approval and Concurrence Process	<i>No Changes</i>
24-B	Design Plans Phase Review	<i>No Changes</i>
24-C	Special Provisions	<i>No Changes</i>

Chapter 25 – Florida’s Design Criteria For Resurfacing, Restoration and Rehabilitation (RRR) of Streets and Highways

25.1	Introduction	<i>No Changes</i>
25.1.1	General	<i>No Changes</i>
25.1.2	Application	<i>No Changes</i>
25.2	Planning and Programming RRR Projects	<i>No Changes</i>
25.2.1	Projects Requiring Right of Way	<i>No Changes</i>
25.2.2	Projects with Bridges within Project Limits.....	<i>No Changes</i>
25.2.3	Project Features Requiring Design Exceptions and Design Variations.....	<i>No Changes</i>
25.2.4	Ride Rehabilitation Projects.....	<i>No Changes</i>
25.3	RRR Project Design Process	<i>No Changes</i>
25.3.1	Review of Project Purpose	<i>No Changes</i>
25.3.1.1	Principal Reason(s) for the RRR Project	<i>No Changes</i>
25.3.1.2	General Nature of Proposed Improvements (Type of Work).....	<i>No Changes</i>
25.3.1.3	Review Project Budget and Priority	<i>No Changes</i>
25.3.2	Assessment of Conditions	<i>No Changes</i>
25.3.2.1	Office Reviews	<i>No Changes</i>
25.3.2.2	Field Reviews	<i>No Changes</i>
25.3.3	Project Scopes	<i>No Changes</i>
25.3.4	Survey Guidelines for RRR Projects	<i>No Changes</i>
25.3.4.1	Types of Work for RRR Projects	<i>No Changes</i>
25.3.4.2	Definition of Levels of Survey Effort	<i>No Changes</i>
25.3.5	Review Project Plans	<i>No Changes</i>
25.3.6	Document the Design Process	<i>No Changes</i>

25.4	RRR Design Criteria	<i>No Changes</i>
25.4.1	Design Period	<i>No Changes</i>
25.4.2	Project Traffic Volume	<i>No Changes</i>
25.4.3	Pavement Design	<i>No Changes</i>
25.4.4	Design Speed	<i>No Changes</i>
25.4.5	Lane and Shoulder Widths	<i>No Changes</i>
25.4.6	Roadway Cross Slopes	<i>No Changes</i>
25.4.7	Superelevation	<i>No Changes</i>
25.4.8	Shoulder Treatment	<i>No Changes</i>
25.4.9	Side Slopes	<i>No Changes</i>
25.4.10	Vertical Alignment	<i>No Changes</i>
25.4.10.1	Vertical Curvature	<i>No Changes</i>
25.4.10.2	Grades	<i>No Changes</i>
25.4.11	Horizontal Alignment	<i>No Changes</i>
25.4.11.1	Horizontal Curves	<i>No Changes</i>
25.4.12	Stopping Sight Distance	<i>No Changes</i>
25.4.13	Vertical Clearance	<i>No Changes</i>
25.4.14	Horizontal Clearance	<i>No Changes</i>
25.4.14.1	Control Zones.....	<i>No Changes</i>
25.4.14.2	Areas Outside Control Zones.....	<i>No Changes</i>
25.4.15	(Reserved)	<i>No Changes</i>
25.4.16	Border	<i>No Changes</i>
25.4.17	Intersections	<i>No Changes</i>
25.4.18	Drainage	<i>No Changes</i>
25.4.19	Pedestrian, Bicyclist and Transit Needs	<i>No Changes</i>
25.4.20	Utilities (Underground and Overhead)	<i>No Changes</i>

25.4.21	At-grade Railroad Crossings	<i>No Changes</i>
25.4.22	Aesthetics and Landscaping	<i>No Changes</i>
25.4.23	Highway Lighting	<i>No Changes</i>
25.4.24	Highway Traffic Control Devices	<i>No Changes</i>
25.4.25	Bridges	<i>No Changes</i>
25.4.25.1	Bridge Loading	<i>No Changes</i>
25.4.25.2	Bridge Width	<i>No Changes</i>
25.4.25.3	Bridge Railing	<i>No Changes</i>
25.4.25.4	Vertical Clearance	<i>No Changes</i>
25.4.25.5	Considerations	<i>No Changes</i>
25.4.26	Roadside Safety Hardware	<i>No Changes</i>
25.4.26.1	Longitudinal Barriers, Guardrails and Median Barriers	<i>No Changes</i>
25.4.26.2	Guardrail to Bridge Rail Transitions	<i>No Changes</i>
25.4.26.3	Guardrail Terminals	<i>No Changes</i>
25.4.26.4	Crash Cushions and Attenuators	<i>No Changes</i>
25.5	Design Exceptions and Design Variations.....	<i>No Changes</i>

Tables

25.4.4.1	RRR Design Speed vs. Posted Speed.....	<i>No Changes</i>
25.4.5.1	Lane and Shoulder Widths - Rural Multilane....	<i>No Changes</i>
25.4.5.2	Lane and Shoulder Widths Two-Lane Rural and Urban, Without Curb and Gutter.....	<i>No Changes</i>
25.4.5.3	Lane Widths Urban Multilane or Two-Lane with Curb and Gutter.....	<i>No Changes</i>

25.4.5.4	Lane and Shoulder Widths Urban	
	Multilane Without Curb and Gutter.....	<i>No Changes</i>
25.4.6	Roadway Cross Slopes	<i>No Changes</i>
25.4.10.1	K Values for Vertical Curvature.....	<i>No Changes</i>
25.4.11.1	Safe Criteria for State Highway System	
	With Maximum Superelevation	<i>No Changes</i>
25.4.12	Stopping Sight Distance.....	<i>No Changes</i>
25.4.14.1	Recoverable Terrain.....	<i>No Changes</i>
25.4.14.2	Horizontal Clearance for Traffic Control Signs.....	<i>No Changes</i>
25.4.14.3	Horizontal Clearance for Light Poles.....	<i>No Changes</i>
25.4.14.4	Horizontal Clearance for Utility Installations.....	<i>No Changes</i>
25.4.14.5	Horizontal Clearance to Signal Poles	
	and Controller Cabinets for Signals.....	<i>No Changes</i>
25.4.14.6	Horizontal Clearance to Trees.....	<i>No Changes</i>
25.4.14.7	Horizontal Clearance to Bridge Piers	
	and Abutments.....	<i>No Changes</i>
25.4.14.8	Horizontal Clearance to Railroad Grade	
	Crossing Traffic Control Devices.....	<i>No Changes</i>
25.4.14.9	Horizontal Clearance to Other Roadside	
	Obstacles.....	<i>No Changes</i>
25.4.14.10	Horizontal Clearance to Drop-Off and	
	Canal Hazards.....	<i>No Changes</i>
25.4.25.1	Bridge Loading.....	<i>No Changes</i>
25.4.25.2	Clear Width Criteria for Bridges.....	<i>No Changes</i>

Exhibits

25-A	Control Zones	<i>No Changes</i>
------	---------------------	-------------------

Chapter 26 – Bridge Project Development

26.1	General	<i>No Changes</i>
26.2	Organization	<i>No Changes</i>
26.3	Definitions	<i>No Changes</i>
26.3.1	Category 1 Structures	<i>No Changes</i>
26.3.2	Category 2 Structures	<i>No Changes</i>
26.4	Abbreviations Used in Structures Design	<i>No Changes</i>
26.5	Responsibility	<i>No Changes</i>
26.6	FHWA Oversight	<i>No Changes</i>
26.7	Bridge Project Development	<i>No Changes</i>
26.8	Bridge Analysis.....	<i>No Changes</i>
26.8.1	General	<i>No Changes</i>
26.8.2	Contents	<i>No Changes</i>
26.9	Bridge Development Report (BDR)/30% Structures Plans	<i>No Changes</i>
26.9.1	General	<i>No Changes</i>
26.9.2	Contents	26-1
26.9.3	Format	<i>No Changes</i>
26.9.4	Aesthetics	<i>No Changes</i>
26.9.5	Construction and Maintenance Considerations	<i>No Changes</i>
26.9.6	Historical Significance Considerations	<i>No Changes</i>
26.9.7	Alternative Designs	<i>No Changes</i>
26.9.8	Conclusions and Recommendations	<i>No Changes</i>
26.9.9	30% Structures Plans	<i>No Changes</i>

26.10	Bridge Development Report (BDR) Submittal Checklist	26-1
26.11	Final Plans and Specifications Preparation	<i>No Changes</i>
26.11.1	General	<i>No Changes</i>
26.11.2	60% Substructure Submittal / 60% Structures Plans	<i>No Changes</i>
26.11.3	90% Structures Plans	<i>No Changes</i>
26.11.4	100% Structures Plans and Specifications	<i>No Changes</i>
26.12	Plans Assembly	<i>No Changes</i>
26.13	Plans Submittal	<i>No Changes</i>
26.13.1	Schedule	<i>No Changes</i>
26.13.2	Submittal Schedule	<i>No Changes</i>
26.14	Review for Constructability and Maintainability	<i>No Changes</i>
26.14.1	Purpose	<i>No Changes</i>
26.14.2	Responsibility	<i>No Changes</i>
26.15	Review for Biddability	<i>No Changes</i>
26.15.1	Purpose	<i>No Changes</i>
26.15.2	Responsibility	<i>No Changes</i>
26.16	Bridge Load Rating	<i>No Changes</i>
26.17	Review of Non-FDOT Funded Projects (New Construction) ...	<i>No Changes</i>
26.18	Deviations from Structures Manual.....	26-2
26.18.1	Deck Slab Design.....	26-2
26.18.2	Sign Structures Splice.....	26-2

Exhibits

26-A	Bridge Development Report (BDR) Submittal Checklist	<i>No Changes</i>
------	---	-------------------

Chapter 27 – Hydraulic Data and U.S. Coast Guard Permits

27.1	Bridge Hydraulic Report (BHR)	<i>No Changes</i>
27.2	Bridge Hydraulic Recommendation Sheet (BHRS)	<i>No Changes</i>
27.3	U.S. Coast Guard Permit	<i>No Changes</i>
27.4	Scour Considerations	<i>No Changes</i>
27.4.1	Development of Scour Design Criteria	<i>No Changes</i>
27.4.2	Submittal Requirements for Scour Design	<i>No Changes</i>
27.5	Debris Accumulation	<i>No Changes</i>
27.6	Widenings	<i>No Changes</i>
27.7	Scour Elevations	<i>No Changes</i>

Exhibits

27-A	Structural Plans Development	<i>No Changes</i>
------	------------------------------------	-------------------

Chapter 28 – Shop and Erection Drawings

28.1	Introduction	28-1
28.2	Drawing Submittals Required	28-1
28.3	Contractor Information Required	<i>No Changes</i>
28.4	Submittals Requiring a Specialty Engineer	28-1
28.5	Scheduling of Submittals	28-1
28.6	Transmittal of Submittals	28-2
28.6.1	General Submittal Requirements	28-2
28.6.2	Requirements for Department EOR	<i>No Changes</i>
28.6.3	Requirements for Consultant EOR (Full Services)	<i>No Changes</i>
28.6.3.1	Review by Engineer of Record only	<i>No Changes</i>

28.6.3.2	Review by Engineer of Record and the Department.....	28-3
28.6.3	Requirements for Consultant EOR (Design Services Only)	<i>No Changes</i>
28.6.5	Requirements for Architectural or Building Structures ...	<i>No Changes</i>
28.6.6	Requirements for Roadway Submittal Items	<i>No Changes</i>
28.6.7	Requirements for Overhead Sign Structures and Nonstandard Miscellaneous Structures	28-3
28.6.8	Miscellaneous Requirements and Assistance	<i>No Changes</i>
28.7	Disposition of Submittals	<i>No Changes</i>
28.7.1	Minor Modifications	<i>No Changes</i>
28.7.2	Major Modifications	<i>No Changes</i>
28.8	Segmental Bridges - Shop Drawing Checklist	<i>No Changes</i>
28.8.1	Construction Methods and Sequence (Overall Scheme) ..	<i>No Changes</i>
28.8.2	Casting Curves and Geometry Control	<i>No Changes</i>
28.8.3	Post-Tensioning System and Computation	<i>No Changes</i>
28.8.4	Segment Shop Drawings	<i>No Changes</i>
28.8.5	Erection Equipment	<i>No Changes</i>
28.9	Distribution of Submittals.....	28-3
28.10	Review of Prequalified Joint Welding Procedures	28-3
28.11	Submittal Activity Record (Logbook)	28-4
28.11.1	Shop Drawing Website.....	28-5
28.12	Archiving Record Shop Drawings	<i>No Changes</i>

Tables

28.1	FDOT Changes to Minor Modifications	<i>No Changes</i>
------	---	-------------------

28.2	FDOT Changes to Major Modifications	<i>No Changes</i>
28.3	Shop Drawing Distribution Schedule	<i>No Changes</i>

Figures

28.1	Record Shop Drawing Transmittal	<i>No Changes</i>
------	---------------------------------------	-------------------

Exhibits

28-A	Shop Drawing Flow Diagram for Review by Consultant EOR Only (Structural Items).....	<i>No Changes</i>
28-B	Shop Drawing Flow Diagram for EOR & DOT Review (Structural Items).....	<i>No Changes</i>
28-C	Shop Drawing Flow Diagram for Review by DOT Only (Structural Items).....	<i>No Changes</i>
28.6-A	Turnpike Enterprise Shop Drawing Review Office; Routing Chart for Electronic Shop Drawing Review Process.....	28-6
28.6-B	Turnpike Enterprise Shop Drawing Review Office; Overview Distribution Chart	28-7
28.6-C	Turnpike Enterprise Shop Drawing Review Office; Shop Drawing Submittal Checklist	28-8
28.6-D	Turnpike Enterprise Shop Drawing Review Office; Contact Information.....	28-9

Chapter 29 – Structural Supports for Signs, Luminaries and Traffic Signals

29.1	General.....	29-1
29.2	Sign Structures	29-1

29.2.1	General.....	<i>No Changes</i>
29.2.2	Standard Single Column Ground Signs.....	<i>No Changes</i>
29.2.3	Standard Multipost Ground Signs.....	<i>No Changes</i>
29.2.4	Standard Span Overhead Sign Structures.....	<i>No Changes</i>
29.2.5	Standard Cantilever Overhead Sign Structures.....	<i>No Changes</i>
29.2.6	Custom Designs.....	<i>No Changes</i>
29.2.7	Space Frame Gantry Structure.....	29-1
29.2.8	Toll Facilities.....	29-2
29.3	Luminaire Structures.....	<i>No Changes</i>
29.3.1	General.....	<i>No Changes</i>
29.3.2	Standard Aluminum Light Poles.....	<i>No Changes</i>
29.3.3	Standard High-Mast Lighting.....	<i>No Changes</i>
29.3.4	Custom Designs.....	<i>No Changes</i>
29.4	Traffic Signal Structures.....	<i>No Changes</i>
29.4.1	General	<i>No Changes</i>
29.4.2	Standard Mast Arm Signal Structures.....	<i>No Changes</i>
29.4.3	Standard Mast Arms for Site-Specific Loadings.....	<i>No Changes</i>
29.4.4	Custom Designs.....	<i>No Changes</i>
29.4.5	Anchor Bolt Installation on Existing Foundations	<i>No Changes</i>
29.4.6	Standard Span Wire with Concrete Strain Poles.....	<i>No Changes</i>
29.4.7	Standard Span Wire with Steel Strain Poles.....	<i>No Changes</i>

Figures

29.1	Flowchart for Designing and Detailing Mast Arm Assemblies...	<i>No Changes</i>
29.2	Standard Mast Arm Design Loading Trees.....	<i>No Changes</i>

Chapter 30 – Retaining Walls

30.1	Purpose	<i>No Changes</i>
------	---------------	-------------------

30.2	Conventional (CIP) Retaining Walls and Proprietary Retaining Walls (Permanent Walls)	<i>No Changes</i>
30.2.1	Retaining Walls (Conventional Design).....	<i>No Changes</i>
30.2.2	Retaining Walls (Proprietary Design) (Design Required in Contract Plans)	<i>No Changes</i>
30.2.3	Retaining Walls (Proprietary Design) (Design not Required in Contract Plans - Control Plans only)	<i>No Changes</i>
30.2.4	Wall System Selection	<i>No Changes</i>
30.3	Critical Temporary Walls	<i>No Changes</i>
30.4	Experimental Wall Projects	<i>No Changes</i>
30.5	Shop Drawing Review	<i>No Changes</i>
30.6	Bidding Procedure	<i>No Changes</i>

Exhibits

30-A	Permanent Retaining Wall Design.....	<i>No Changes</i>
------	--------------------------------------	-------------------

Chapter 31 – Geosynthetic Design

31.1	Purpose	<i>No Changes</i>
31.2	Contract Plans Content	<i>No Changes</i>
31.3	Bid Procedure	<i>No Changes</i>
31.4	Shop Drawings / Redesigns	<i>No Changes</i>
31.5	Geosynthetic Reinforcement Design Methodology	<i>No Changes</i>
31.5.1	Design Considerations	<i>No Changes</i>
31.5.2	Requirements	<i>31-1</i>
31.5.3	Design Guidelines	<i>No Changes</i>

Exhibits

31-A	Geosynthetic Reinforced Soil Slopes	<i>No Changes</i>
------	---	-------------------

31-B Geosynthetic Reinforced Foundations Over Soft Soils	<i>No Changes</i>
--	-------------------

Chapter 32 – Sound Barriers

32.1 General Requirements.....	<i>No Changes</i>
32.2 Noise Study Report Addendum.....	<i>No Changes</i>
32.3 Noise Abatement Criteria.....	<i>No Changes</i>
32.4 Public Involvement.....	<i>No Changes</i>
32.5 Final Noise Abatement Commitments.....	<i>No Changes</i>
32.6 Structural Design	<i>No Changes</i>
32.7 Geotechnical Investigation.....	<i>No Changes</i>
32.8 Preparation of Control Drawings.....	<i>No Changes</i>
32.9 Detail Drawings.....	<i>No Changes</i>

Tables

32.1 Noise Abatement Criteria.....	<i>No Changes</i>
------------------------------------	-------------------

Chapter 33 – Reinforced Box and Three – Sided Culverts

33.1 General.....	<i>No Changes</i>
33.2 Structure Type Selection.....	<i>No Changes</i>
33.2.1 Precast Concrete Culverts.....	<i>No Changes</i>
33.2.2 Concrete Box Culverts.....	<i>No Changes</i>
33.2.3 Three-Sided Concrete Culverts.....	<i>33-1</i>
33.2.3.1 Precast Arch and Arch-Topped Units.....	<i>No Changes</i>
33.2.3.2 Precast Frame Units.....	<i>No Changes</i>

33.3	Foundation Design.....	33-1
33.3.1	Rock Foundations.....	<i>No Changes</i>
33.3.2	Earth or Granular Soil Foundations.....	<i>No Changes</i>
33.3.3	Three-sided Culvert Foundation Design.....	33-1
33.4	Wingwalls.....	<i>No Changes</i>
33.5	Headwalls/Edge Beams.....	<i>No Changes</i>
33.6	Cutoff Walls.....	<i>No Changes</i>
33.7	Aprons.....	<i>No Changes</i>
33.8	Subbase Drainage.....	<i>No Changes</i>
33.9	Joint Waterproofing.....	<i>No Changes</i>
33.10	Traffic Railings.....	<i>No Changes</i>
33.11	Design Requirements for Concrete Culverts.....	<i>No Changes</i>
33.12	Design Details.....	<i>No Change</i>
33.13	Computer Design and Analysis Programs.....	<i>No Changes</i>
33.14	Design and Shop Drawing Approvals.....	<i>No Changes</i>

Tables

33.1	Bar Identification Schedule.....	<i>No Changes</i>
------	----------------------------------	-------------------
