

Table of Contents

The following revisions or additions to the current Plans Preparation Manual (PPM) Volume I, will be applicable for all projects on Florida's Turnpike Systems.

Chapter 1 – Design Controls

1.5	RRR Design	1-1
1.5.1	Turnpike Resurfacing, Restoration and Rehabilitation (RRR) Design	1-1
1.9.1	Design Speed Coordination and Approvals.....	1-1
1.13	Turnpike Design Controls.....	1-1
1.13.1	Use of “Interstate” vs. “Freeway Other” vs. “Non Interstate” Criteria.....	1-1

Chapter 2- Design Geometrics and Criteria

2.1.5	Cross Slopes	2-1
2.1.6	Roadway Pavement	2-1
2.1.7.1	Pavement Thickness Transition Guidelines.....	2-1
2.3	Shoulders	2-2
2.3.1	Limits of Friction Course on Paved Shoulders	2-2
2.3.2	Shoulder Warning Devices (Rumble Strips)	2-3
2.3.4	Shoulder Rocking	2-3
2.4	Roadside slopes.....	2-3
2.6	Grades	2-4
2.6.2	Maximum Change in Grade Without Vertical Curves	2-4
2.8	Curves	2-4
2.8.2	Vertical Curves	2-4
2.9	Superelevation.....	2-4
2.10	Vertical Clearance	2-5

2.11	Horizontal Clearance	2-5
2.14.5	Crossovers on Turnpike Facilities.....	2-5
2.17	Toll Plazas.....	2-6
2.17.1	Horizontal Taper Rates.....	2-6
2.17.2	Cross Slopes and Transitions.....	2-6
2.17.3	Profile Grades.....	2-7
2.17.4	Toll Plaza Clear Zones/Horizontal Clearance.....	2-7
2.17.5	Queue Storage Criteria.....	2-11
2.18	Sodding	2-11

Tables

2.10.2	Minimum Vertical Clearances for Signs.....	2-5
--------	--	-----

Chapter 3 – Earthwork

3.5.9	Summary of Earthwork.....	3-1
-------	---------------------------	-----

Chapter 4 – Roadway Safety

4.2.1	Canal Hazards	4-1
4.3.1	Canal Hazards	4-1
4.3.2	Barrier Selection	4-1
4.3.5	Placement	4-1
4.4.2	Selection.....	4-2
4.4.4	Median Barrier Grading Requirements	4-2

Tables

4.3.1	Minimum Offset of Barriers (Measured from the face of the barrier)	4-2
-------	--	-----

Chapter 5 – Utilities*No Changes to this Chapter***Chapter 6 – Railroad Crossing***No Changes to this Chapter***Chapter 7 – Traffic and ITS Design**

7.1	General	7-1
7.2.1	Design Criteria	7-1
7.2.8	Guidance on the use of Various Pavement Marking Material	7-2
7.2.10	Overhead Sign	7-3
7.2.11	Sign Background Sheeting	7-3
7.2.12	Toll Route Markers.....	7-3
7.2.13	Toll Plazas.....	7-4
7.2.13.1	Approach Signing for Mainline Toll Plazas.....	7-4
7.2.13.2	Approach Signing for Ramp Toll Plazas.....	7-4
7.2.13.3	Canopy Signing.....	7-4
7.2.13.4	Pavement Markings.....	7-5
7.2.13.5	SunPass.....	7-5
7.2.13.5.1	Signing.....	7-5
7.2.13.5.2	Pavement Markings.....	7-5
7.2.14	Truck Lane Restrictions.....	7-6
7.2.15	All Electronic Toll Header Panels	7-6
7.3	Lighting	7-7
7.3.1	Design Criteria	7-7
7.3.1.1	Box Girder Maintenance Lighting and Power.....	7-11
7.3.1.2	Photometric Analysis.....	7-12

7.3.1.3	Load Center and Wiring Criteria.....	7-12
7.3.2	Pole Design Criteria	7-13
7.3.2.1	General	7-13
7.3.3	Foundations Criteria	7-14
7.3.5	Lighting Project Coordination	7-14
7.3.6	Voltage Drop Criteria	7-15
7.3.6.1	Load Analysis Criteria	7-15
7.3.9	Mainline Toll Plaza	7-15
7.4	Traffic Signals	7-16
7.4.1	Design Criteria	7-16
7.4.1.1	Lane Use Control Signals.....	7-16
7.4.2	Certification and Specialty Items	7-16
7.4.13	Traffic Signal Project Coordination	7-17
7.5	Intelligent Transportation System (ITS) Components	7-17
7.7	Electrical Analysis.....	7-17
7.7.1	Voltage Drop.....	7-17
7.7.2	Load Analysis.....	7-18
7.7.3	Arc Flash Hazard Analysis.....	7-18
7.7.4	Short Circuit Analysis and Device Coordination.....	7-18

Tables

7.3.1	Conventional Lighting - Roadways	7-9
7.3.2	Highmast Lighting - Roadways	7-10
7.3.3	Sign Lighting	7-10
7.3.5	Rest Area Lighting.....	7-11

Chapter 8 – Pedestrian and Bicycle Facilities

8.7	Bridges, Overpasses, and Underpasses	8-1
8.7.3	Fencing/Railing.....	8-1

Chapter 9 – Landscaping

9.1	General	9-1
9.2	Maintenance Plan	9-1
9.2.1	Maintenance Plan Through Warranty Period	9-1
9.2.2	Maintenance Plan After Warranty Period	9-2

Chapter 10 – Transportation Management Plan

10.2	References	10-1
10.3.1.1	Temporary Traffic Control (TCC).....	10-1
10.3.1.1.1	TTC Plan Development.....	10-1
10.4	Coordination	10-2
10.7	Signs	10-2
10.7.3	Project Information Sign and Work Zone Signs.....	10-2
10.10	Pavement Markings	10-2
10.10.1	Removing Pavement Markings	10-2
10.12	Temporary Traffic Control Plan Details	10-3
10.12.5	Superelevation.....	10-3
10.12.6	Lane Widths.....	10-3
10.12.6.1	Emergency Pull Off Area.....	10-3
10.12.7	Lane Closure Analysis.....	10-4
10.12.7.1	Exit Ramp Lane Closure	10-5

10.12.8.1 Traffic Pacing.....	10-5
10.12.12 Narrow Bridges and Roadways	10-5
10.12.18 Temporary Drainage	10-6
10.12.19 Friction Course on Temporary Pavement	10-6
10.12.20 Temporary Barrier Wall Tape	10-6
10.12.21 Reflective Pavement Markers	10-7
10.12.22 Standard MOT General Notes	10-7
10.13.1 Regulatory Speeds in Work Zones	10-7
10.14.2 Use of Traffic Control Officer	10-7
10.15 Motorist Awareness System.....	10-8

Chapter 11 – Stormwater Pollution Prevention Plan

No Changes to this Chapter

Chapter 12 – Right of Way

12.1 General	12-1
12.2.3 Access Management	12-1
12.4 Property Owner Contacts	12-1
12.5 Construction Issues	12-2

Chapter 13 – Initial Engineering Design Process

13.2 Initial Engineering Design (Phase I)	13-1
13.5 Support Services.....	13-1
13.5.2.2 Projects Involving Bridges With Asbestos Containing Materials.....	13-1
13.6 Preliminary Geometry, Grades, and Cross Sections.....	13-1

Chapter 14 – Final Engineering Design Process

14.5	Pay Items and Summaries of Quantities	14-1
14.6	Assemble Contract Plans Package	14-1

Exhibits

14-A	Major Activities – Final Engineering Design Process	14-2
------	---	------

Chapter 15 – Update Engineering Design Process

No Changes to this Chapter

Chapter 16 – Design Submittals

16.2.3	Typical Section Package	16-1
16.2.3.1	FTE Processing.....	16-1
16.2.4	Preliminary Drainage Design	16-2
16.2.5	Preliminary Geometry and Grades	16-2
16.2.5.1	Turnpike Preliminary Line and Grade Submittal.....	16-2
16.2.6	Preliminary Traffic Control Plan	16-3
16.2.6.1	Turnpike Preliminary Traffic Control Plan.....	16-3
16.2.7	Pavement Selection and Design	16-4
16.2.7.1	Turnpike Pavement Design Submittals.....	16-4
16.2.7.2	Cross Slope Analysis Report.....	16-4
16.2.9	Roadway Design Documentation.....	16-5

Exhibits

16-C	Building	16-6
16-D	Certification of Plans, Specifications and Quantities.....	16-7

Chapter 17 – Engineering Design Estimate Process

17.4.1	Computation Book and Summary of Quantities	17-1
17.6	Alternative Contracting Practices	17-1

Chapter 18 – Quality Assurance & Quality Control

18.4	Turnpike Quality Control and Assurance Process	18-1
18.4.1	Quality Goals and General Requirements	18-1
18.4.2	Quality Control Procedure Requirement	18-3
18.4.2.1	Completion Checklists Requirements	18-3
18.4.2.2	Quality Control Tracking Stamp Requirements	18-3
18.4.2.3	Quality Process Log Requirements	18-4
18.4.2.4	Standard Documentation Procedure	18-4
18.4.3	Definitions	18-4

Exhibits

18-A	Project Staffing List	18-6
18-B	Certificate of Compliance	18-10
18-C	Quality Process Log	18-11

Chapter 19 – Sealing Design Documents

19.3	Sealing Other Design Documents	19-1
------	--------------------------------------	------

Chapter 20 – Plans Processing and Revisions

20.1	General	20-1
20.3	Plans Processing	20-1

20.4	Revisions to the Contract Plans Package	20-1
------	---	------

Figures

20.3	Methods for Documenting Changes to the Plans and/or Specifications...	20-2
------	---	------

Exhibits

20.4-A	Transmittal of Plans, Specifications and Estimates Package.....	20-3
20-A	Turnpike Design-Bid-Build E-Delivery Activities – Pre-Prodcuton.....	20-4
20-B	Turnpike Design-Bid-Build E-Delivery Activities – Production to PS&E Transmittal.....	20-5
20-C	Turnpike Design-Bid-Build E-Delivery Activities – Advertisement + Addendums.....	20-6
20-D	Turnpike Design-Bid-Build E-Delivery Activities – Letting + Construction.....	20-7

Chapter 21 – Transportation Design for Livable Communities

No Changes to this Chapter

Chapter 22 – Lump Sum Project Guidelines

No Changes to this Chapter

Chapter 23 –Exceptions and Variations

23.3	Approval.....	23-1
23.3.1	Turnpike Design Exceptions.....	23-1
23.3.2	Turnpike Design Variations.....	23-1

Chapter 24 – Federal Aid Project Certification

No Changes to this Chapter

Chapter 25 – Florida’s Design Criteria For Resurfacing, Restoration and Rehabilitation (RRR) of Streets and Highways

25.1.2 Application	25-1
25.3.6 Document the Design Process	25-1
25.4.26.2 Existing Structures with Planned Additional Loading.....	25-1
25.5 Design Exceptions and Design Variations.....	25-2

Chapter 26 – Bridge Project Development

26.9.2 Contents	26-1
26.9.4 Aesthetics	26-1
26.10 Bridge Development Report (BDR) Submittal Checklist	26-2
26.19 Deviations from Structures Manual.....	26-2
26.19.1 Deck Thickness Determination.....	26-2
26.19.2 Miscellaneous Structures Splice.....	26-3
26.19.3 Bridge Deck Grooving.....	26-3
26.19.4 GRS Walls.....	26-3

Chapter 27 – Hydraulic Data and U.S. Coast Guard Permits

No Changes to this Chapter

Chapter 28 – Shop and Erection Drawings

28.1 Introduction	28-1
28.3 Contractor Information Required.....	28-1

28.4	Submittals Requiring a Specialty Engineer	28-2
28.6	Transmittal of Submittals	28-3
28.6.1	General Submittal Requirements	28-3
28.6.2	Requirements for Department Architect of Record and/or Engineer of Record.	28-3
28.6.3	Requirements for Consultant Architect of Record and/or Engineer of Record (Full Services)	28-4
28.6.3.1	Review by Engineer of Record/Architect of Record only.....	28-5
28.6.3.2	Review by Engineer of Record/Architect of Record and the Department.....	28-5
28.6.5	Requirements for Architectural or Building Structures	28-6
28.6.6	Requirements for Roadway Submittal Items	28-6
28.6.7	Requirements for Overhead Sign Structures and Nonstandard Miscellaneous Structures	28-6
28.6.8	Miscellaneous Requirements and Assistance	28-6
28.7	Distribution of Submittals	28-6
28.9	Distribution of Submittals.....	28-7
28.10	Review of Prequalified Joint Welding Procedures	28-7
28.11	Submittal Activity Record (Logbook)	28-8
28.11.1	Shop Drawing Website.....	28-8
28.12	Archiving Record Shop Drawings	28-9

Exhibits

28-A	Shop Drawing Flow Diagram for Review by Consultant EOR Only (Structural Items).....	28-10
------	--	-------

28-B	Shop Drawing Flow Diagram for EOR & DOT Review (Structural Items).....	28-3
28.6-A	Turnpike Enterprise Shop Drawing Routing Chart for “Electronic” Shop Drawing Review Process.....	28-3
28.6-B	Turnpike Enterprise Shop Drawing Review Office; Department’s Review Staff Distribution Chart	28-11

Chapter 29 – Structural Supports for Signs, Luminaries and Traffic Signals

29.1	General.....	29-1
29.2.4 & 29.2.5	Standard Overhead Span/Cantilever Sign Structure.....	29-1
29.2.6	Custom Designs.....	29-2
29.2.7	Dynamic Message Sign (DMS) Structures.....	29-2
29.2.8	Gantry Structures.....	29-2
29.4.2	Mast Arm Signal Structures.....	29-4

Chapter 30 – Retaining Walls

No Changes to this Chapter

Chapter 31 – Geosynthetic Design

31.5.2	Requirements	31-1
--------	--------------------	------

Chapter 32 – Sound Barriers

32.3	Noise Abatement Criteria.....	32-1
------	-------------------------------	------

Chapter 33 – Reinforced Box and Three – Sided Culverts

33.2.3 Three-Sided Concrete Culverts.....	33-1
33.3.3 Three-sided Culvert Foundation Design.....	33-1

Chapter 34 Tolls

See Separate Attachment on FTE Website.
