

Chapter 32

Sound Barriers

The following are changes, additions or deletions to the January 2013, Topic #625-000-007, Plans Preparation Manual (PPM), for use on Turnpike projects only.

32.3 Noise Abatement Criteria

Add the following paragraph

Maintenance access points shall be provided for sound barrier walls constructed along the Turnpike. The preferred spacing between openings or the ends of the wall is one-half mile. Consultants shall coordinate all maintenance openings with the FTE Project Manager and the FTE Maintenance Department. See the attached drawings for examples of potential access opening types. Please note that the Design Consultant will be responsible for the final Control Drawings and the Detail Drawings. All details for the openings will become the responsibility of the Consultant.

32.9 Detail Drawings

Add the following paragraph

FTE does not require the use of street names for fire access holes. (See the IDS for Index 5200 - Sound Walls).
