KEVIN J. THIBAUT, P.E.
SECRETARY

MEMORANDUM

DATE: July 25, 2019
FROM: Patrick Muench, P.E., Turnpike District Design Engineer
SUBJECT: 2019 General Tolling Requirements (GTR) Publication

This memorandum announces the 2019 release of one (1) design criteria document:

- ***General Tolling Requirements (GTR)***
Unredacted version available by request as identified below.

IMPLEMENTATION

The GTR and associated criteria are effective on projects beginning design on or after July 22, 2019, and on projects currently in the design phase where implementation will not adversely impact production schedules (as determined by the Turnpike Project Manager and Turnpike Design Engineer).

Please be aware that certain portions of information contained in the GTR may be protected from disclosure to persons or entities outside of the Department. Generally, an unredacted version of the GTR may be made available to:

- Current Department employees
- Consultants under contract with the Department for toll-related projects
- Licensed architects, engineers, and contractors in accordance with the Department's Distribution of Exempt Documents Procedure (050-020-026)

However, this is not an exclusive list and there are other considerations regarding the distribution of the GTR. Questions relating to the distribution of the GTR should be directed to your supervisor and/or the Turnpike's Chief Counsel.

For projects that are currently being advertised for letting, requests for the GTR should continue to be coordinated through the Procurement Office.

REQUIREMENTS

The General Tolling Requirements went through an overall reorganization and criteria update. The document has been broken into three (3) parts:

- Part 1 – Development and Process

- Part 2 – Design Criteria
- Part 3 – Plans Production

The GTR is written and directed to the Tolls EOR. Any requirements for the Contractor have been moved to the appropriate Tolls TSP section and included in Part 2 – Appendix 1. Other changes consist of formatting, language edits, and updated references.
