

NO-BUILD ALTERNATIVE CONDITIONS

LEVEL OF SERVICE (LOS) DEFINITIONS

- LOS A** Free-flow traffic with individual users virtually unaffected by the presence of others in the traffic stream.
- LOS B** Stable traffic flow with a high degree of freedom to select speed and operating conditions but with some influence from other users.
- LOS C** Restricted flow that remains stable but with significant interactions with others in the traffic stream. The general level of comfort and convenience declines noticeably at this level.
- LOS D** High-density flow in which speed and freedom to maneuver are severely restricted and comfort and convenience have declined even though flow remains stable.
- LOS E** Unstable flow at or near capacity levels with poor levels of comfort and convenience.
- LOS F** Forced traffic flow in which the amount of traffic approaching a point exceeds the amount that can be served. LOS F is characterized by stop-and-go waves, poor travel times, low comfort and convenience, and increased accident exposure.

Public Kick-off Meeting
 Fort Lauderdale Marriott Coral Springs Hotel
 11775 Heron Bay Boulevard
 Coral Springs, Florida 33076
 Tuesday, November 15, 2016
 5:30 PM - 7:30 PM
