Orange and Lake County**

To whom it may concern:

The Florida Department of Transportation, Florida's Turnpike Enterprise, is preparing roadway plans for the Florida's Turnpike Mainline (SR 91) Widening project from SR 50 (Clermont) to Minneola Interchange. DRMP, Inc. of Orange County, Florida, and its sub-consultants are under contract with Florida's Turnpike Enterprise to perform Engineering Design Services as needed for the project. As part of this process, certain field investigations will be necessary including field surveys, inspections, and soil borings performed by engineers, surveyors, planners, and environmental scientists. Florida Statutes allow access to lands (public or private properties) by public agencies and their representatives for the purpose of conducting these activities. You may be contacted prior to the work by a representative from our Consultant Project Team to ensure safe entry on to your property.

The scope of this project outlines that the Consultant Project Team will be performing general tasks such as environmental, noise assessment, geotechnical, utility evaluation, archaeological/historical, and miscellaneous field services as directed by Florida's Turnpike Enterprise. DRMP, Inc. will be providing various design services and Inwood Consulting Engineers, Janus Research, and Tierra, Inc., will be assisting DRMP, Inc. in performing these field services.

Amanda Woods, PE, is the Consultant Project Manager for DRMP, Inc. and Anil Sharma, PE, is the Project Manager for Florida's Turnpike Enterprise. All members of the Consultant Project Team are required to carry out their work in a courteous and safe manner. It is anticipated that
