

# Northern Turnpike Mainline/SR 91 Widening Project from South of Osceola Parkway to Beachline Expressway & SR 417

## Project Description

Florida's Turnpike Enterprise (FTE) is widening the Northern Turnpike Mainline/State Road (SR) 91 from four to eight lanes, between Osceola Parkway and the Beachline Expressway/SR 528.

This project includes the following improvements:

- Constructing new ramps at the SR 417 interchange: northbound Northern Turnpike Mainline to southbound SR 417, southbound Northern Turnpike Mainline to northbound SR 417 and southbound Northern Turnpike Mainline to southbound SR 417
- Widening and/or reconstructing ramps at the Osceola Parkway and Orlando South interchanges
- Replacing the Northern Turnpike Mainline bridges over the Central Florida Rail corridor and Central Florida Parkway/CSX railroad spur
- Replacing the roadway overpasses at Orange Avenue/CR 527 and Taft-Vineland Road
- Constructing sound walls in qualifying residential areas, installing pavement markings, highway lighting, drainage, and signage

## Construction and Traffic Impacts

Construction will take place during both daytime and nighttime hours. Nearby residents and businesses may experience periodic construction noise, vibration, and dust. FTE takes steps to reduce construction impacts and efforts will be made to limit traffic and noise disruptions.

Lane closures will generally take place during off peak hours to minimize traffic congestion and delays for most drivers. Closures will be announced in advance in the Central and West Central Florida Weekly Lane Closures and Work Zone Advisory.

### Schedule and Funding

#### Construction Schedule

Work is anticipated to be completed in 2021.

#### Cost and Funding

The project cost is approximately \$177 million.
