

## Central Polk Parkway New Facility from Polk Parkway/SR 570 to US17/SR 35 FPID: 440897-2

### Project Description

The Central Polk Parkway is a new facility linking the Polk Parkway (SR 570) to US 17 (SR 35) with at-grade intersections at US 17.

This four-lane, limited access toll facility will provide better direct access to Polk Parkway and Interstate 4, reduce freight traffic into Bartow and improve truck travel time, enhance safety by separating regional through-traffic from local traffic, provide regional connectivity on existing roads, and foster economic development with the Central Florida Intermodal Logistics Center in Winter Haven.

### Project Status

This project is in Design.

Railroad, Utilities, Environmental, and Construction are in the Tentative Five-Year Work Program.
