

Turnpike Mainline (SR 91) Interchange Improvement at SR 91 and Sample Road FPID: 444301-1

Project Description

This project widens the existing northbound off ramp for Sample Road from Turnpike Mainline (SR 91). An additional lane of approximately 2,000 feet in length will be constructed.

This project includes pavement widening and reconstruction, milling, resurfacing and associated stormwater drainage improvements.

Project Status

The project is in Design.

Environmental and Construction are funded in Fiscal Year 2022.
