

Construction Alert

Sawgrass Expressway/SR 869 Canal Bank Restoration Project

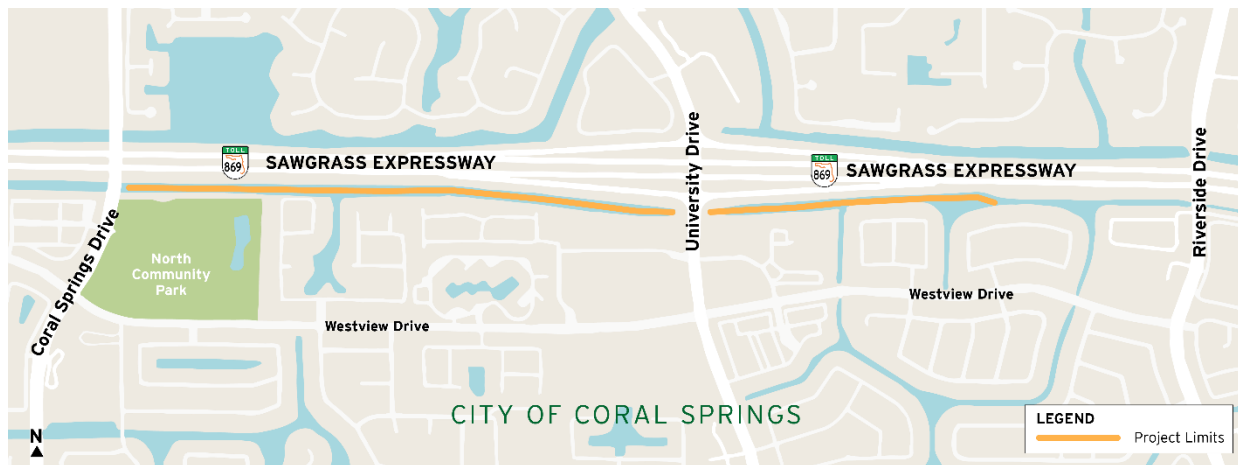

Florida's Turnpike Enterprise (FTE) has begun tree and vegetation removal within the North Springs Improvements District's right-of-way, adjacent to Sawgrass Expressway/State Road (869) from University Drive to 1,000 feet west of Riverside Drive.

Once vegetation removal is completed, construction crews will begin repairing and stabilizing the embankment slope in the area. This will protect the embankment and prevent future erosion.

These activities will take place daily during daytime hours — between 7 a.m. and 7 p.m. — to minimize disruptions.

This work is part of the Sawgrass Expressway Canal Bank Restoration Project. Please note, this schedule may change due to inclement weather or unforeseen circumstances.

FTE thanks you for your continued patience as we complete this project.
