

Construction Alert

New Traffic Pattern on Frontage Road and Okeechobee Road in Miami-Dade County

On Monday, March 8, all travel lanes on Frontage Road between NW 138 Street and Okeechobee Road/US 27 will be shifted slightly to the north side of the roadway to open a new construction work zone.

To complete this work, the following traffic pattern changes will be implemented:

- Motorists traveling on westbound Okeechobee Road, west of NW 138 Street, will no longer be able to access Frontage Road. Motorists will only be able to access Frontage Road from NW 138 Street. This traffic pattern is anticipated to continue through the end of this project.
- Motorists traveling on westbound Frontage Road, west of NW 138 Street will no longer be able to access westbound Okeechobee Road. Motorists will only be able to access Okeechobee Road from NW 138 Street as shown in the attached Work Zone Map. **Please note, access to westbound Okeechobee Road from westbound Frontage Road will remain permanently closed.**

During construction, vehicles **will not be allowed to park along the swale areas of Frontage Road**, as shown in the second map attached. "No Parking" signs are installed throughout restricted parking areas. Any vehicles that park within these restricted areas will be subject to towing at the vehicle owner's expense.

Message boards have been installed along Okeechobee Road, Frontage Road, NW 112 Avenue and NW 138 Street to inform drivers of these changes. Motorists are encouraged to use caution, drive slowly through the area and follow the posted signage.

This work is part of the widening project along Florida's Turnpike/State Road (SR) 821 between NW 106 Street and Interstate 75 and includes widening Okeechobee Road from west of Florida's Turnpike to east of NW 107 Avenue. This project is expected to be completed by 2025. Please note that this schedule may change due to inclement weather or unforeseen conditions.
