

Bridge Rehabilitation Throughout Central & South Florida

Project Description

Florida's Turnpike Enterprise (FTE) is rehabilitating multiple bridges on Florida's Turnpike/State Road (SR) 91 throughout Central and South Florida.

This project will include encasing existing concrete piles to prolong the life of the bridges, in the following areas:

- Palm Beach County - (milepost 80 & 116)
- Martin County - (milepost 138)
- Indian River County - (milepost 175)
- Okeechobee County - (milepost 182 & 191)
- Osceola County - (milepost 229 & 242)

Construction and Traffic Impacts

Construction will take place during both daytime and nighttime hours. Nearby residents and businesses may experience periodic construction light, noise, vibration, and dust through the project's duration. FTE takes steps to reduce construction impacts and efforts will be made to limit traffic and noise disruptions.

Lane closures will generally take place during off-peak hours to minimize traffic congestion and delays for most drivers. Closures will be announced in advance in the South Florida and Treasure Coast Weekly Lane Closures and Work Zone Advisory.

Schedule and Funding

Construction Schedule

Work is anticipated to continue through mid-2022.

Cost and Funding

The project cost is approximately \$4.1 million.
