

### Fast Facts

- ✓ The project is currently in the Planning phase and is following the Alternative Corridor Evaluation (ACE) process.
- ✓ Held three hybrid virtual and in-person public meetings in December 2021 and welcomed over 1,300 attendees.
- ✓ The Alternative Corridor Evaluation (ACE) process is evaluating four potential corridors with the goal of narrowing to one corridor.
- ✓ The PD&E Study will develop alternative alignments within the recommended corridor from the ACE.
- ✓ The PD&E study will also evaluate a No-Build option as well as potential Transportation Systems Management and Operations (TSM&O) improvements.
- ✓ The PD&E Study will consider innovative concepts to combine Right-of-Way acquisition with the acquisition of environmental mitigation lands.

### Economic Opportunities & Benefits

- ✓ Enhance regional connectivity
- ✓ Address regional congestion and safety
- ✓ Accommodate increased travel demand
- ✓ Improve hurricane evacuation

### Project Description

The Northern Turnpike Extension project is a proposed extension of Florida’s Turnpike from its northerly terminus in Wildwood to a logical and appropriate terminus as determined by the Florida Department of Transportation (FDOT).

### Project Status

This project is following the ACE process and the PD&E Study is anticipated to be complete in Spring 2023. The project is currently funded through the Project Development and Environment (PD&E) Study phase. It is not funded for the Design, Right of Way, or Construction phases. This project is being evaluated as a Turnpike System expansion project and is required to meet statutory tests of environmental and economic feasibility.
