

Florida's Turnpike and Sample Road Interchange Improvements Project

Project Description

Florida's Turnpike Enterprise is improving the existing interchange at Florida's Turnpike/State Road (SR) 91 and Sample Road/SR 834 (Exit 69), in Broward County.

This project includes:

- Widening the northbound Florida's Turnpike exit ramp to Sample Road from one lane to two lanes
- Resurfacing a portion of the northbound and southbound Florida's Turnpike exit ramps to Sample Road
- Modifying the existing Sample Road Toll Plaza and removing non-operational toll booths
- Improving signage and pavement markings

These enhancements will add capacity and increase safety and efficiency.

Construction and Traffic Impacts

Construction will take place during both daytime and nighttime hours. Nearby residents and businesses may experience periodic construction light, noise, vibration, and dust through the project's duration. Florida's Turnpike Enterprise takes steps to reduce construction impacts and efforts will be made to limit traffic and noise disruptions.

Lane closures will generally take place during off peak hours to minimize traffic congestion and delays for most drivers. Closures will be announced in advance in the South Florida and Treasure Coast Weekly Lane Closures and Work Zone Advisory.

Schedule and Funding

Construction Schedule

Work is anticipated to continue through mid-2023.

Cost and Funding

The project cost is approximately \$1.9 million.
