

Turnpike Mainline / SR 91

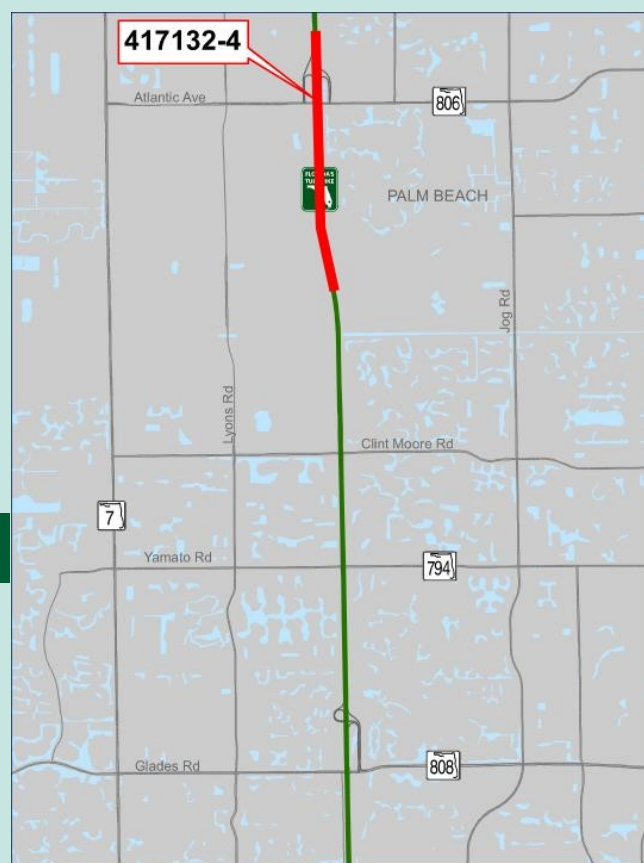

Widen from the L-38 Canal To North of Atlantic Avenue

FPID: 417132-4

Project Description

The proposed improvements mainly consist of widening the Florida's Turnpike from north of the L-38 Canal (MP 80.2) to north of Atlantic Avenue (MP 82.4) from the existing 6-lane divided expressway to a 10-lane divided typical section with 4-general travel lanes and 1-thru lane in each direction. Thru lanes will be separated from general purpose toll by a buffer delineated with two 6-inch solid lines.

The project also includes replacement of the widening the bridge over Atlantic Avenue milling and resurfacing, noise barriers, roadway lighting, and signing and pavement markings.

Project Status

The Design for this project is on hold until Fiscal Year 27.

Construction is not funded.
