

Florida's Turnpike Mainline/SR 91 Resurfacing and Roadside Improvements Project from I-595 to Pompano Beach Service Plaza

Project Description

Florida's Turnpike Enterprise is resurfacing Florida's Turnpike Mainline/State Road (SR) 91 from north of Interstate 595 (I-595) to the Pompano Beach Service Plaza (mileposts 57 to 65), in Broward County.

This project is extending the life of the pavement and will provide safety improvements. Benefits from this project include:

- Enhancing safety by installing high friction surface treatment to the asphalt to reduce skidding on the Mainline and existing ramps at the Sunrise Boulevard/SR 838 (Exit 58) and Commercial Boulevard/SR 870 (Exit 62) interchanges.
- Enhancing safety by installing new guardrail along the Mainline and ramps, and underdeck lighting at bridges.
- Increasing mobility by installing additional signage and new sign panels that allow for easier movement of motorists.
- Prolonging the life of the bridges within the project limits with expansion joint repairs.

Construction and Traffic Impacts

Construction will take place during both daytime and nighttime hours. Nearby residents and businesses may experience periodic construction light, noise, vibration, and dust. The Enterprise takes steps to reduce construction impacts and efforts will be made to limit traffic and noise disruptions.

Lane closures will generally take place during off-peak hours to minimize traffic congestions and delays for most drivers. Closures will be announced in advance in the South Florida and Treasure Coast Weekly Lane Closures and Work Zone Advisory.

Schedule and Funding

Construction Schedule

Work is anticipated to be completed in early 2024.

Cost and Funding

The project cost is approximately \$16.5 million.
