

## South Florida Wrong-Way Detection Technology Implementation Project

### Project Description

As part of the Florida Department of Transportation’s Wrong-Way Driving Prevention Initiative, Florida’s Turnpike Enterprise is enhancing the Wrong-Way Vehicle Detection System throughout Miami-Dade, Broward, and Palm Beach counties.

The Enterprise is increasing the amount of wrong-way signage, roadway reflectors, and pavement markings in locations along Florida’s Turnpike/State Road (SR) 821, Florida’s Turnpike/SR 91, and Sawgrass Expressway/SR 869.

These enhancements will assist in monitoring, detecting, and preventing wrong-way drivers, and notifying law enforcement and Traffic Management Center staff for response.

### Construction and Traffic Impacts

Construction will take place during both daytime and night-time hours. Lane closures will generally take place during off-peak hours to minimize traffic congestion and delays for most drivers. Efforts will be made to limit traffic and noise disruptions, but lane closures, ramp closures, and detours will be necessary to accomplish the improvements.

Closures will be announced in advance in Florida’s Turnpike South Florida and Treasure Coast Weekly Lane Closures and Work Zone Advisory.

#### Schedule and Funding

##### Construction Schedule

Work is expected to be completed in late 2023.

##### Cost and Funding

The project cost is approximately \$ 5.5 million.
