

Florida's Turnpike and Coconut Creek Parkway Interchange Improvements Project

Project Description

Florida's Turnpike Enterprise is improving the existing interchange at Florida's Turnpike/State Road (SR) 91 and Coconut Creek Parkway/Dr. Martin Luther King Jr. Boulevard (Exit 67), in Broward County.

Benefits of this project include:

- Reducing congestion with the addition of an eastbound left turn lane from Coconut Creek Parkway to the entrance ramp to Florida's Turnpike
- Improving mobility by adding a second left turn lane from NW 31 Avenue to Coconut Creek Parkway
- Enhancing traffic flow by constructing an additional through lane from Florida's Turnpike exit ramps to NW 31 Avenue
- Increasing roadside safety by installing new, highly reflective overhead signage and pavement markings to improve visibility in all lighting and weather conditions

Construction and Traffic Impacts

Construction will take place during both daytime and nighttime hours. Nearby residents and businesses may experience periodic construction light, noise, vibration, and dust throughout the project's duration. Florida's Turnpike Enterprise takes steps to reduce construction impacts, and efforts will be made to limit traffic and noise disruptions.

Lane closures will generally take place during off-peak hours to minimize traffic congestion and delays for most drivers. Closures will be announced in advance in the South Florida and Treasure Coast Weekly Lane Closures and Work Zone Advisory.

Schedule and Funding

Construction Schedule

Work is anticipated to continue through late 2024.

Cost and Funding

The project cost is approximately \$3.5 million.
