

Florida’s Turnpike/SR 91 Resurfacing and Roadside Improvements Project from Pompano Beach Service Plaza to Sawgrass Expressway/SR 869

Project Description

Florida’s Turnpike Enterprise is resurfacing Florida’s Turnpike/State Road (SR) 91 from the Pompano Beach Service Plaza to Sawgrass Expressway/SR 869 and extending the entrance ramp lane from northbound Sawgrass Expressway to southbound Florida’s Turnpike, in Broward County.

Benefits from this project include:

- Enhancing safety by installing high friction surface treatment to the asphalt to reduce skidding and improve vehicle traction during adverse weather conditions on the Turnpike and existing ramps at the Atlantic Boulevard/SR 814 (Exit 66), Coconut Creek Parkway/Dr. Martin Luther King Jr. Boulevard (Exit 67), and Sample Road/SR 834 (Exit 69) interchanges
- Providing smoother traffic flow by extending the entrance ramp lane from northbound Sawgrass Expressway to southbound Florida’s Turnpike by about 1,700 feet
- Improving roadside safety with new highly reflective signing and pavement markings which will increase visibility in all lighting and weather conditions

Construction and Traffic Impacts

Construction will take place during both daytime and nighttime hours. Nearby residents and businesses may experience periodic construction light, noise, vibration, and dust through the project’s duration. Florida’s Turnpike Enterprise takes steps to reduce construction impacts and efforts will be made to limit traffic and noise disruptions.

Lane closures will generally take place during off peak hours to minimize traffic congestion and delays for most drivers. Closures will be announced in advance in the South Florida and Treasure Coast Weekly Lane Closures and Work Zone Advisory.

Schedule and Funding

Construction Schedule

Work is anticipated to continue through mid-2025.

Cost and Funding

The project cost is approximately \$16.2 million.
