

Florida's Turnpike/SR 91 and Claude Pepper Memorial Highway/US 27 Interchange Improvements Project

Project Description

Florida's Turnpike Enterprise is improving traffic operations at the Florida's Turnpike/State Road (SR) 91 interchange with Claude Pepper Memorial Highway/US 27 at milepost 289 in Lake County.

Benefits for this project include:

- Improving safety operations by installing wrong way driving counter measures
- Enhancing mobility by adding new mast arm signals on US 27 for the new southbound left turn exit ramp and for the left turn to northbound turnpike on-ramp
- Improving traffic flow and accessibility by adding a new left turn exit ramp on the southbound Turnpike at US 27 (Exit 289).

Construction and Traffic Impacts

Construction will take place during both daytime and nighttime hours. Nearby residents and businesses may experience periodic construction light, noise, and dust throughout the project's duration. The Enterprise takes steps to reduce construction impacts and efforts will be made to limit traffic and noise disruptions.

Lane closures will generally take place during off peak hours to minimize traffic congestion and delays for most drivers. Closures and detours will be announced in advance in the Central and West Central Florida Weekly Lane Closures and Work Zone Advisory.

Schedule and Funding

Construction Schedule

Work is anticipated to be completed by early 2024.

Cost and Funding

The project cost is approximately \$2.6 million.
