

Florida's Turnpike/SR 91 and Daniel Webster Western Beltway/SR 429 Dynamic Message Sign Enhancements Project

Project Description

To fulfill its mission to help meet the state's growing transportation needs, ensuring value to customers, and enhancing safety for all travelers, Florida's Turnpike Enterprise is enhancing dynamic message signs throughout Florida's Turnpike/State Road (SR) 91 and the Daniel Webster Western Beltway/SR 429 throughout Sumter, Osceola, Orange, and Martin Counties.

This project will update the overhead dynamic message signs on Florida's Turnpike/SR 91 between milepost 119 and milepost 307, and the Daniel Webster Western Beltway/SR 429 between milepost 2 and milepost 10. Dynamic message signs are overhead electronic signs that provide drivers with real-time traffic alerts.

Project Benefits:

- Enhancing visibility by replacing the existing overhead electronic signs with full color signs
- Improving access to safety and emergency messaging by installing up-to-date programming

Construction and Traffic Impacts

Construction will take place during both daytime and nighttime hours. Nearby residents and businesses may experience periodic construction light, noise, and dust throughout the project's duration. The Enterprise takes steps to reduce construction impacts and efforts will be made to limit traffic and noise disruptions.

Lane closures will generally take place during off-peak hours to minimize traffic congestion and delays for most drivers. Closures and detours will be announced in advance in the Central and West Central Florida Weekly Lane Closures and Work Zone Advisory.

Schedule and Funding

Construction Schedule

Work is anticipated to be completed by late 2024.

Cost and Funding

The project cost is approximately \$1.3 million.
