PROJECT OVERVIEW

Florida's Turnpike Enterprise, part of the Florida Department of Transportation (FDOT), is designing Transportation System Management and Operations (TSM&O) improvements for the State Road (SR) 429 southbound exit ramp at the US 192 interchange in Orange County.

This project is in Design, which is the third phase of the FDOT project development process. During this phase, construction plans, specifications, and final estimates to build a project are developed.

KEY IMPROVEMENTS

- Widening the existing single-lane ramp from SR 429 to US 192 to a multi-lane ramp.
- Lengthening the ramp from 1,500 feet to 4,300 feet to a location near the existing toll plaza.
- Reconfiguring the ramp terminal at the intersection with US 192 to include three right turn lanes and two left turn lanes.
- Changing the southbound US 192 off ramp so traffic will exit SR 429 at the existing southbound cash toll plaza exit.
- Drainage modifications and maintenance.
- Adding retaining walls to minimize impacts to existing stormwater facilities.
- Modifications to signage, drainage, lighting, and intelligent transportation system (ITS) components.
- Modifications to traffic signals to match the new ramp terminal configuration including replacement of existing mast arm signal poles and all other signal equipment affected by the ramp widening.
