Proposed Improvements

The PD&E Study involves evaluating alternatives for widening Florida's Turnpike Mainline (SR 91) from North of SR 60 to South of Clay Whaley Road (Mile Post 193-238.5) in Osceola County, Florida. Possible future interchange access locations are also included as part of this study. The Turnpike Mainline within the project area is currently a four-lane (two lanes in each direction) limited-access toll facility. The study area extends approximately 45.5 miles.
