

Florida's Turnpike/SR 91 at Daniel Webster Western Beltway/SR 429 Bridge Painting Project in Orange County

Project Description

Florida's Turnpike Enterprise is repainting five bridges at the Daniel Webster Western Beltway/State Road (SR) 429 interchange (Exit 267B to Ocoee/SR 50) in Orange County. The life of these bridges will be prolonged by cleaning/repainting the steel components and concrete surfaces to prevent corrosion and reduce water infiltration. This project includes minor structural repairs and improving the overall aesthetics of the structures, ensuring the quality and longevity of the structures for our customers.

Construction and Traffic Impacts

Construction will take place during daytime and nighttime hours. Nearby residents and businesses may experience periodic construction light, noise, vibration, and dust. The Enterprise takes steps to reduce construction impacts and efforts will be made to limit traffic and noise disruptions.

Lane closures will generally take place during off-peak hours to minimize traffic congestion and delays for most drivers. Closures will be announced in advance in the Central and West Central Florida Weekly Lane Closures and Work Zone Advisory.

Schedule and Funding

Construction Schedule

Work is anticipated to be completed by late 2025.

Cost and Funding

The project cost is approximately \$8 million.
