

Widen Turnpike Mainline from Crosstown Pkwy to Midway Rd (MP 144-149) (FPID 446583-1)

Fast Facts

- ✓ Widening mainline from four to six lanes
- ✓ Bridge structures widened/reconstructed
- ✓ Coordination with stakeholders (incl. FGT)
- ✓ Potential noise wall locations
- ✓ Part of mainline initiative to accelerate widening of existing four lane facilities

Project Needs & Benefits

- ✓ Adds capacity for future travel demand
- ✓ Improves travel time reliability, safety, and mobility options in St. Lucie County.
- ✓ Facilitates traffic movement during emergency response and evacuation periods

Project Description

This project widens Turnpike Mainline / SR 91 from Crosstown Parkway (MP 144) to Midway Rd (MP 149) in St. Lucie County. The typical section consists of widening the existing four 12-foot lanes to six 12-foot lanes and widening both the inside the outside shoulders from 10 feet to 12 feet. Noise barriers will be further evaluated during design and provided for qualified areas.

The estimated construction cost for this project is approximately \$268 million.

Project Status

A Project Development and Environment (PD&E) Study was completed in March 2022. Design for this project is programmed in FY 2026 and is anticipated to take up to four years to complete, which includes utility coordination and permitting. Construction for this project is not yet programmed in the Five-Year Work Program.
