

Construction Alert

Utility Installations Begin Along Florida's Turnpike Between Milepost 79 and North of Atlantic Avenue in Palm Beach County

Beginning Monday, May 5, utility installation will begin along Florida's Turnpike/State Road (SR) 91 from north of the L-38 Canal (milepost 79) to north of Atlantic Avenue/SR 806 (milepost 82) in Palm Beach County. As part of this work, crews will perform low-impact drilling activities to install underground utilities.

Work will take place daily between the hours of 7 a.m. and 7 p.m. You may experience construction noise during these periods. Our project team will monitor these activities to minimize impacts to residents and businesses.

This work is part of the Palm Beach County Canal Improvements Project along Florida's Turnpike from north of the L-38 Canal (milepost 79) to north of Atlantic Avenue/SR 806 (milepost 82). These canal improvements will support the future widening of Florida's Turnpike, increase the resilience of the canal infrastructure, improve safety, and prevent erosion.

Please note, this schedule may change due to inclement weather or unforeseen conditions.

The Enterprise thanks you for your continued patience while we complete this important project.
