

## Florida's Turnpike/SR 91 Transportation Systems Management & Operations Project at Ocoee/SR 50 Exit Ramp

### Project Description

Florida's Turnpike Enterprise (Enterprise) is advancing a Transportation System Management and Operations (TSM&O) project at the Florida's Turnpike/ State Road (SR) 91 exit ramp to Ocoee/SR 50 (Exit 267B), in Orange County. The project is designed to improve traffic flow, enhance safety, and strengthen regional mobility for drivers, residents, and businesses.

#### Project Benefits

- **Improved Traffic Flow:** Adding a new outside lane on eastbound SR 50 to provide better access to and from Marshall Farms Road and help reduce congestion where the Florida's Turnpike exit ramp merges onto SR 50.
- **Increased Resilience:** Upgrading entrance and exit ramps on eastbound SR 50 to support the new lane, increasing roadway durability and extending its service life.
- **Enhanced Safety:** Installing a new traffic signal to reduce conflict points for vehicles exiting Florida's Turnpike onto eastbound SR 50.

### Construction and Traffic Impacts

Construction will take place during both daytime and nighttime hours. Nearby residents and businesses may experience periodic construction light, noise, and dust throughout the project's duration. The Enterprise takes steps to reduce construction impacts and efforts will be made to limit traffic and noise disruptions.

Lane closures will generally take place during off-peak hours to minimize traffic congestion and delays for most drivers. Closures and detours will be announced in advance in the Central and West Central Florida Weekly Lane Closures and Work Zone Advisory.

#### Schedule and Funding

**Construction Timeline:** Work is anticipated to be completed by early 2027.

**Project Cost:** Approximately \$6 million.
