

Florida's Turnpike/S.R. 91 Transportation Systems Management & Operations Project from South of Sawgrass Expressway/S.R. 869 to North of Glades Road

Project Overview

Florida's Turnpike Enterprise is implementing a Transportation System Management and Operations (TSM&O) initiative adding a lane in each direction of Florida's Turnpike/State Road (S.R.) 91 from south of Sawgrass Expressway/S.R. 869 (milepost 71) to north of Glades Road/S.R. 808 (milepost 76) in Broward and Palm Beach counties.

Project Benefits

- **Increased Roadway Capacity:** Reducing congestion and improving travel times by adding a lane in each direction of the Turnpike Mainline.
- **Enhanced Safety:** Installing new roadway lighting, updated signage, fresh pavement markings, and upgrading the intelligent transportation system to promote safer and more efficient travel.
- **Reduced Traffic Noise:** Installing sound barrier walls along qualifying residential areas.

Construction and Traffic Impacts

Construction activities will occur during both daytime and nighttime hours. Nearby residents and businesses may experience occasional impacts from construction-related light, noise, vibration, or dust. The Enterprise is committed to minimizing these disruptions and takes steps to limit traffic delays and noise.

Lane closures will generally take place during off-peak hours to reduce impacts on drivers. Information about closures will be provided in advance through the South Florida Weekly Lane Closures and Work Zone Advisory.

Project Schedule and Funding

Construction Timeline: Work is anticipated to continue through 2029.

Project Cost: Approximately \$100 million.
