

# WIDEN FLORIDA'S TURNPIKE (SR 91) FROM NORTH OF GLADES ROAD TO NORTH OF THE L-38 CANAL

PALM BEACH COUNTY

FINANCIAL PROJECT IDENTIFICATION NUMBER: 417132-1 AND PBC NO. 2017518

JUNE 2026

## PROJECT OVERVIEW

The project widens Florida's Turnpike Mainline/SR 91 from north of Glades Road (Milepost 76.8) to north of the L-38 Canal (Milepost 80.2) in Palm Beach County.

In addition, Florida's Turnpike Enterprise has partnered with Palm Beach County Public Works to widen Yamato Road from Lakeridge Boulevard to west of Florida's Turnpike from four to six lanes.

## KEY IMPROVEMENTS

- Increasing number of general use lanes from six to eight and adding one auxiliary lane in each direction of Florida's Turnpike
- Realigning southbound off ramp to the existing Glades Road interchange
- Replacing the Yamato Road bridges
- Replacing the bridge over Clint Moore Road
- Replacing the bridge over L-38 Canal
- Noise walls in qualifying areas
- Increasing number of lanes from four to six and drainage improvements on Yamato Road

In compliance with Florida Statute Chapter 479.25 for Outdoor Advertising, the hearing will provide a forum to receive input regarding the proposed noise attenuation barriers, potential conflict with local ordinances or land development regulations, and any feasible alternatives or modifications that may reduce or eliminate such conflicts. The Enterprise will consider measures that could minimize costs related to relocation, construction, or compensation for affected ODAs. Erection of the proposed noise-attenuation barriers may block the visibility of an existing outdoor advertising sign. The local government or local jurisdiction may restrict or prohibit increasing the height of the existing outdoor advertising sign.
