Construction Alert

New Northbound Seminole Expressway
Exit Ramp to Westbound Aloma Avenue Open to Traffic

Florida's Turnpike Enterprise has opened the new northbound Seminole Expressway/State Road (S.R.) 417 exit ramp to westbound Aloma Avenue/S.R. 426 (Exit 38). The new ramp opened to traffic on Friday, June 19, 2026, and provides dedicated access for drivers wishing to travel westbound on Aloma Avenue.

Drivers on northbound Seminole Expressway will continue to use Exit 38. Once on the ramp, drivers wishing to access westbound Aloma Avenue will follow the new dedicated movement which includes three right-turn lanes onto Aloma Avenue, designed to move traffic more efficiently through the interchange. Northbound Seminole Expressway traffic wishing to access eastbound Aloma Avenue will continue using the existing northbound exit ramp, which now serves eastbound traffic only.

Message boards and new permanent signs have been installed throughout the interchange to guide motorists through the updated traffic pattern.
