

Sawgrass Expressway/State Road 869 Widening Project

from Sample Road to University Drive

Project Description

Florida's Turnpike Enterprise is widening Sawgrass Expressway/State Road (S.R.) 869 from north of Sample Road/S.R. 834 to south of University Drive/S.R. 817 and improving the existing interchange at Coral Ridge Drive in Broward County.

Project Benefits

- **Increased Traffic Flow:** Adding two lanes to Sawgrass Expressway/S.R. 869, for a total of four lanes in each direction, from north of Sample Road to south of University Drive.
- **Improved Connectivity:** Converting the Coral Ridge Drive interchange to a diverging diamond interchange, creating more direct access with the addition of three turn lanes for a total of four northbound and four southbound lanes at the Coral Ridge Drive exit ramp.
- **Strengthened Infrastructure:** Reconstructing and widening the bridges at Coral Springs Drive and Coral Ridge Drive and upgrading stormwater management.
- **Enhanced Safety:** Installing new roadway lighting, updated signage, fresh pavement markings, updated signalization at Coral Springs Drive, and upgraded intelligent transportation systems to promote safer and more efficient travel.

Construction and Traffic Impacts

Construction will take place during both daytime and nighttime hours. Nearby residents and businesses may experience periodic construction light, noise, and dust throughout the project's duration. The Enterprise takes steps to reduce construction impacts and efforts will be made to limit traffic and noise disruptions.

Lane closures will generally take place during off-peak hours to minimize traffic congestion and delays for most drivers. Closures and detours will be announced in advance in the South Florida and Treasure Coast Weekly Lane Closures and Work Zone Advisory.

Schedule and Funding

Construction Schedule:

Work is anticipated to be completed by late 2029.

Project Cost:

The project cost is approximately \$95 million.
