

Sawgrass Expressway/State Road 869 Widening Project

from Atlantic Boulevard to Sample Road

Project Description

Florida's Turnpike Enterprise (Enterprise) is widening Sawgrass Expressway/State Road (S.R.) 869 from Atlantic Boulevard (Exit 8) to Sample Road/S.R. 834 (Exit 11) in Broward County.

Project Benefits

- Improving mobility by adding four additional lanes from north of Atlantic Boulevard to north of Sample Road, for a total of five lanes in each direction.
- Relieving congestion by adding one additional lane to the entrance ramps and adding two additional lanes to the exit ramps at Sample Road.
- Increasing safety and traffic efficiency by converting the Sample Road interchange to a partial diverging diamond interchange, limiting the number of traffic signal phases and allowing drivers to make a left turn without crossing in front of oncoming traffic.
- Improving roadside safety by installing new signage, pavement markings, signalization, lighting, and drainage.

Construction and Traffic Impacts

Construction will take place during both daytime and nighttime hours. Nearby residents and businesses may experience periodic construction light, noise, vibration, and dust through the project's duration. Florida's Turnpike Enterprise takes steps to reduce construction impacts and efforts will be made to limit traffic and noise disruptions.

New lanes constructed as part of this project will open upon the completion of adjacent widening projects. Lane closures will generally take place during off-peak hours to minimize traffic congestion and delays for most drivers. Closures will be announced in advance in the South Florida and Treasure Coast Weekly Lane Closures and Work Zone Advisory.

Schedule and Funding

Construction Schedule:

Work is anticipated to continue through 2028.

Project Cost:

The project cost is approximately \$110 million.
