

Beachline Expressway Ramp Widening & John Young Parkway Operational Improvements Project

Project Description

Florida's Turnpike Enterprise is widening the eastbound Beachline Expressway/State Road (S.R.) 528 exit ramp to John Young Parkway/County Road (C.R.) 423 (Exit 3) and making operational and safety improvements along John Young Parkway between S.R. 528 and Taft Vineland Road.

The project includes modifying the Beachline Expressway and John Young Parkway interchange to provide direct access from the eastbound exit ramp to the left turn lanes at Taft Vineland Road.

Project Benefits

- **Improved Traffic Flow:** Providing direct access from the eastbound Beachline Expressway exit ramp to the left turn lanes at Taft Vineland Road, helping reduce congestion and improve travel through this busy interchange.
- **Enhanced Safety:** Installing raised traffic separators to protect left-turn movements from John Young Parkway onto Taft Vineland Road, while also upgrading the roadway with resurfaced pavement, improved drainage, new highly reflective signage and pavement markings, enhanced lighting, traffic signal improvements, and intelligent transportation systems.

Construction and Traffic Impacts

Construction will take place during both daytime and nighttime hours. Nearby residents and businesses may experience periodic construction light, noise, vibration, and dust through the project's duration. The Enterprise takes steps to reduce construction impacts and efforts will be made to limit traffic and noise disruptions.

Lane closures will generally take place during off-peak hours to minimize traffic congestion and delays for most drivers. Closures will be announced in advance in the Central and West Central Florida Weekly Lane Closures and Work Zone Advisory.

Schedule and Funding

Construction Schedule:

Work is anticipated to continue through mid-2027.

Project Cost:

The project cost is approximately \$6.5 million.
